

The Army sent over a barrage of drop kicks to beat the navy but some of the privates who rode the navy's tubs overt hink its time for the navy to stop kicking

# WOMAN HELD HERE; DEAD BABE FOUND

## YEATS ELOPMENT ROMANCE CLOSED IN PRISON CELL

Unfrocked Alluwe Minister Given Five Years by Jurors.

OUT FIFTEEN MINUTES

States He Will Carry on Work of Lord Wherever He May Be.

(By the Associated Press)

NOWATA, Nov. 29.—A jury in district court here today required but 15 minutes to deliberate and return a verdict of guilty against Joseph E. Yeats, unfrocked minister of Alluwe, charged with the abduction of 15-year-old Georgia Fields, formerly a chorister in Yeats' church. The 12 men, 10 farmers and two oil field employees, fixed his punishment at five years in the state penitentiary.

Yeats, who had displayed little emotion during the five days trial, heard the verdict unflinchingly. Shortly afterwards he declared he would "carry on the work of the Lord where I happen to be." His attorneys announced they would appeal the case to be state criminal court of appeals. Judge Charles H. Baskin announced he would pass sentence upon Yeats December 6.

After listening to the final arguments by A. T. Anglin, county attorney and C. F. Gowdy, defense counsel, the jury received the judge's charge and retired from the court room at 11:20 a. m. The court room was only partially filled when the jury returned a quarter of an hour after with the verdict.

One Ballot Taken

A. M. Cobb, foreman, stated only one ballot was taken.

With tears trickling down his cheeks A. W. Fields, father of Georgia whose reputation the defense had attempted to besmirch, rushed to the jury box after the verdict was read and grasping the foreman's hand in both of his exclaimed: "Thank God our name has been vindicated. Yeats got all that was coming to him." Yeats had nothing to say regarding the verdict.

The charge of abduction grew out of Yeats' elopement with the girl in September, after a marriage ceremony which the former minister who surrendered his credentials at the last meeting of his church district conference admitted he himself had performed. Yeats was arrested at the home of his father near Winters, Texas, several days after the flight, after a search that extended into was brought back to Oklahoma by her parents.

E. J. Giddings, one of Yeats' attorneys, was out of the court room when the verdict was returned. C. F. Gowdy, also an attorney for Yeats declared the judgement would be appealed to the state criminal court of appeals. The case went to the jury at 11:20 and at 11:35 the verdict was returned.

Characterizing the man as "a viper" in human form and requesting the jury to "look at his snakey eyes," A. T. Anglin, county attorney castigated the former minister and urged the jury to give the maximum penalty as a warning to others, that the law "stands between them and out young girls." Anglin declared the evidence showed that Yeats was guilty and any attempt of the defense to declare the issue with emotionalism would not influence the jury.

Yeats blinked at the prosecutor as his denunciation sounded through the court room and his finger pointed accusingly at him. C. F. Gowdy, attorney for Yeats, closed for the defense. E. J. Giddings of Oklahoma City, also attorney for Yeats, was not in the court room this morning. Gowdy declared the intense love of Georgia Fields for the former minister was the cause of her building a fabrication of falsehood that she might elope with him. The foreman of the jury who found Yeats a guilty man, was A. F. Cobb, a farmer near Nowata. Ten of the jurors were men engaged in farming, while two were oil men.

## Waits Tendered Opportunity to Reap Fortune, But He Refuses

A wonderful opportunity has been extended to M. A. Waits, local druggist.

An opportunity to reap a reward of \$120,000 for a task that is comparatively simple (?)—the securing of a fund in trust for \$360,000. Those are big figures even for a druggist to consider.

But does he accept the apparent easy method of making \$120,000?—He does not!

Here's what it is all about: Waits received a letter from an unknown person, who claimed he was in prison in Spain. A prisoner in bankruptcy, who also claims to possess a fortune in America, which he is unable to secure because he is in prison.

Waits has been tendered the opportunity of securing the money and reaping the reward.

The Ada druggist is unable to determine the source of information that led to the belief that he might be accustomed to dealing in fortunes.

In the words of the wise prophet, Waits declares: "I am unwilling to be the goat." He will not answer the following letter received here Saturday from Madrid:

## BARRAGE OF DROP KICKS BEAT NAVY

Army Star Boots Four Over Posts for Only Counters of Annual Game.

(By the Associated Press)

BALTIMORE, Nov. 29.—A barrage of drop kicks from the magic toe of Capt. Edward W. Garbisch broke down the Navy's defense today and gave the Army a spectacular victory over its ancient service foe.

Rising to super-heights in the climax of his long and brilliant gridiron career, Garbisch made four field goals that represented the entire margin of the Army's 12 to 0 triumph in the thrilling and desperately fought struggle before President Coolidge and a throng of 78,000 packed in the Baltimore stadium.

Garbisch by kicking four field goals not only performed a feat that has no parallel in army and navy history, but throughout the game was an outstanding figure in both attack and defense in a triumph that broke a two-year deadlock in the service rivalry and gave the cadets a lead in the series that was inaugurated in 1890. As a result the army now has 13 victories to its credit, the navy 12 while two battles resulted in ties.

The cadets by the decisiveness of their victory fulfilled predictions that made them favorites, but they were forced to a terrific fight to take he measure of the midshipmen who rallied from the depths of a previously disastrous campaign and put up a brilliant defensive battle that thwarted every attempt of the army to score a touchdown and might have produced another scoreless deadlock, such as was waged a year ago, only for the unstopable performances of Garbisch.

Outplayed, but not outclassed, the midshipmen went down to defeat in a courageous battle against a team which displayed far greater experience, coolness and versatility.

## WATER COLLECTIONS NOW HINDER AUDIT WINDUP

The city audit has been completed, according to Mayor Somer Jones, with the exception of getting action on about 800 of 1,000 notices sent to patrons of the water works, who appear on the books as delinquent.

Mayor Jones desires to urge on the citizens the need for quick action. To date only about 200 have been heard from. Mayor Jones is anxious that the other 800 come in Monday and either pay up or else produce their cancelled checks or receipts showing that they have paid up and have not been given credit.

The reason for a speedy straightening up of these accounts is to enable the city to know just who have paid and who have not. In case payment has been made and the city not given credit for it, the amount can be collected from the bonding company. Otherwise, the city will lose it.

The mayor urges that all who have received notices appear Monday to straighten up their records on the books so that the audit can be brought to a final conclusion.

## CONGRESS FACES DARK PERIOD IN ACTION OF C.O.P.

Little Legislative Action Expected as Result of Ousting LaFollette.

POWER IN BALANCE

Think Bills Doomed Under Complexed Situation in Congress.

(By the Associated Press)

WASHINGTON, Nov. 29.—Action of the senate Republican conference in reading out of the party at this time, Senator La Follette and his three chief supporters, Senators Brookhart, Frazier and Ladd, will result in further complicating the complex congressional situation, in the opinion of most observers at the capital.

The action has created what several senators described today as an "ugly situation" and since La Follette's bloc will continue to hold the balance of the power at the final session of this congress beginning next Monday, leaders generally anticipate little legislative action before March 4, beyond passage of the appropriation bills.

Senator LaFollette and his supporters have not yet held any conference with respect to their course at the coming session, but attention was called today to the situation under which they could, if they desired, endanger any legislative program agreed upon by administration leaders by enforcing certain rules of the senate.

They anticipate that there will be a disposition by the insurgents to adopt such a course, and some senators expressed doubt that even all of the supply measures can be put through before the end of the session, March 4. Their belief is that the situation resulting from the conference action is one that will increase the necessity for an extra session of the new congress elected this month.

Without making direct reference to the conference action, both Republican and Democratic leaders in the senate declared today that they looked for little affirmative action other than the disposition of he supply bills. Senator Curtis of Kansas, newly elected majority leader, said he hoped to have the senate take up general bills now on the calendar in such order as the steering committee may decide.

"I hope we can take up the co-operative marketing bills of farm organization which have been introduced," Senator Curtis said.

## GUTHRIE FARMER SHOTS RECENTLY DIVORCED WIFE

(By the Associated Press)

GUTHRIE, Nov. 29.—John G. Taylor, farmer living 15 miles north west of here, late yesterday shot and killed his recently divorced wife to whom he had been married for nearly 50 years and then turned the gun on himself dying instantly. The Taylors were the parents of 13 children.

According to officers who investigated the killing, Taylor had been away from his home for five or six weeks, visiting among his married children and his presence in the neighborhood was unknown to his family or neighbors.

Both he and his wife were about 70 years old. They were divorced in September. Bitterness over the separation is believed by neighbors to have led to Taylor's act.

He is believed to have hidden in the woods near his home until his four grown sons left the house to return to work in the cotton field. An 18-year-old daughter, gathering clothes in the yard heard the shots and rushed to find the bodies of her parents.

A note found on Taylors body directed officers to a spot in a field where a suit case with his effects would be found. Taylor was regarded by neighbors as "eccentric."

French Debt May Be Settled

WASHINGTON, Nov. 29.—Informal exchanges looking to a refunding settlement of the French debt to the United States has progressed to a point where the matter will be laid before the full membership of the American debt commission for discussion at a meeting called here for December 1.

## Growl Against Static Taken to Court for Relief by Pitt

The radio—first a novelty, then an entertainment, next a market information agency and finally a political boom—reached the peak of valuation in Ada Friday afternoon when W. E. Pitt, Ada florist, stressed its worth at \$10,000 in court action against the Oklahoma Pipe Line company.

Pitt is accredited with filing the first suit in Pontotoc county for control of the air in permitting clear reception of radio broadcasting.

Pitt, through his attorneys, filed four causes of action against the corporation seeking to enjoin them from continuing a high powered copper telegraph and telephone line over his property.

Three causes of action in Pitt's litigation against the pipe line company stressed the allegation that radio reception had been demoralized through the construction of the telegraph line. The first cause of action dealt with the damage claimed to have been suffered on his property through the erection and construction of the line for which he sought reparation to the extent of \$250. He also sought \$250 for exemplary damages in the action.

In Pitt's second cause of action he recited the fact that he was one of the first to heed to the radio call and about two years ago, he installed a radio receiving set at his home. He further stated "that the set had been used by himself and his neighbors during said term for his own personal enjoyment and for the entertainment of his neighbors;

## Record Attendance at Tulsa-Muskogee Turkey Day Battle

(By the Associated Press)

MUSKOGEE, Nov. 29.—Attendance at the Tulsa-Muskogee football game here Thanksgiving set a new high record for the state with 6,036 paid admissions, it is believed by officials of the Central high school. Besides these, 474 people attended the game on passes, and it is estimated that 500 more "crashed the gates."

The attendance was 2,500 more than at any previous football game here, and 2,000 greater than when Babe Ruth and the New York Yankees played the Brooklyn Dodgers in an exhibition game two years ago when a high mark for athletic attendance was set for Muskogee. It is estimated that 1,250 people Tulsa people attended the game.

## COTTON GINNINGS HIT HIGH MARK

Ginnings Past Week Raise Total in County Over 22,000 Mark

For the past two weeks cotton receipts in the county have slowed steadily downward as the farmers caught up with their picking, but the fair weather has made it possible to gather in the scattering bolls and keep a thin stream of the staple moving to the gins. Total ginnings are now probably above 22,000, judging from receipts at Ada. Total receipts by the gins at this place during the past two weeks total 423 bales, the season's output up to 3 o'clock Saturday afternoon being 7,419. During the season Ada has received approximately a third of all ginned in the county. On that basis the figures will total 22,000 bales. It now appears certain that when the last scraps have been brought in the season's figures will be fully 25,000 bales.

The county weigher had handled 7,490 bales up to 3 o'clock Saturday afternoon, and the Cotton Growers' association 650. Adding to these round bales equivalent to 367 square bales and the total shipped or to be shipped from Ada totals 8,507.

There was little change in prices Saturday. The best bale sold for 22.55, but buyer said none brought in was of a good grade. They said the best grade would have brought 23 cents.

Considerable cotton came in during the day, buyers and gin men estimating receipts for the day at 50 bales or more.

Fire at Tonkawa Pool

(By the Associated Press)

BLACKWELL, Nov. 29.—Fire fighting crews in the Tonkawa pool were gathered tonight at the McDonald lease to fight a fire that already had destroyed four rigs for the Blackwell Oil and Gas Co.

Early tonight estimates of the damage were placed at \$25,000.

## CONFESSES BABE LEFT IN BAG ON PASSENGER TRAIN

Julia Thompson Awaiting Arrival of Authorities From Miami.

MAN IS IMPLICATED

Hargis Finds Woman and Causes Confession of Motherhood

A blood-stained railroad ticket led to the detention here by city and county officers of Julia Thompson, age 30, of Pitcher, in connection with the finding of a three-day old babe in a traveling bag on a south bound Frisco passenger train early Saturday morning at Sherman, Texas.

Confession that she was the mother of the child came early Saturday afternoon in a statement to Police Chief Sam Hargis after hours of grilling in the office of County Attorney J. W. Dean, according to Hargis.

The lifeless form of the baby was found in a handbag at Sherman, when authorities found the bag and searched the contents. A wad of paper was found in its mouth, as it lay lifeless in a heap of women's garments. A post-mortem investigation by authorities at Sherman is said to have revealed that the child had lived and that death had apparently resulted from strangling from the effect of the wedge of paper in its tiny mouth.

In the confession of the mother of the babe, in the office of County Attorney Dean Saturday afternoon, she stated that the father, a salesman for a Joplin wholesale grocery house of Miami, was present at the time the child was born and had informed her that the child did not live at birth. She claimed that he placed the child in the bag to be taken with her on her journey here.

Authorities here were informed by the sheriff's office at Miami, that the man implicated in the confession of the woman was under surveillance and arrest was expected hourly. The name of the man implicated in the alleged crime was withheld by local police until arrest could be made at Miami.

The detention of the woman here was caused when Sherman authorities questioned the conductor on the train concerning the finding of the baby. Authorities were told by the conductor of the description of a woman, who handed a blood-stained ticket with Ada as its destination and who occupied a seat in the vicinity on the train where the bag was found.

Hargis Locates Woman

Police Chief Sam Hargis located the woman at the Frisco hotel, early Saturday morning, registered as Julia Thompson, of Byars. Her detention was caused when her answers to questions concerning the handbag were unfavorable. A subpoena was issued and she was brought to the county attorney's office for investigation.

According to the police, she first told of having visited in Joplin before going to Baxter Springs and thence to Ada, but when confronted with the evidence that she had purchased a ticket at Miami for Ada, she refuted her former statement by declaring that a woman had given her a ticket at Baxter Springs for Miami. Her final statement was to the effect that she went direct from Joplin to Pitcher, where she gave birth to the child, found lifeless and abandoned at Sherman.

She stated that she had been an employee of J. G. Ross of Pitcher and that she had been divorced from her former husband over two years. Her three-year old son accompanied her to Ada.

She also stated that she was enroute to the home of her father at Byars.

Following her long grilling in the county attorney's office, she was placed under the care of physicians in a guarded room at the Frisco hotel. During the investigation she showed signs of intense nervousness and before its conclusion she broke down completely, reciting a tale of unrequited love. The strain of childbirth on November 26 and the trip to Ada, coupled with the strain of the investigation, left her in a state of exhaustion.

She is being held in the custody of local officers until officers from Miami arrive to take charge of the case.

BRUSSELS, Nov. 29.—Giacomo Puccini, former operatic composer, died at noon today from a throat infection following an operation.

The death of the composer was due directly to heart attack.

# About Schools—

**Irving School Notes**  
Several of the grades have visited the Greenhouse this week. The basketball girls played Latta school last Monday at noon. They reported having a fine game. The score was 15 to 11 in favor of Latta. They also played a game with the Hays school, Tuesday and were successful, the score being 12 to 10 in favor of Irving.

All the teachers in this school are Yellow Dogs. We hope that other schools will be as successful. Hurrah for the Shriners!  
The seventh grade visited the seventh grade at Willard, last Tuesday. They had a ciphering contest and our grade came back running over with joy. I guess you know why.

There was a Thanksgiving program at chapel Wednesday morning. Several short talks were made by the pupils. Each grade had a contest to see who could make the most words out of "Thanksgiving Day." The winners were given prizes.

The primer folks are doing fine work. The Bluebird division has had a star all week, and are trying to catch the butterfly division. There is a large number who has not been absent nor tardy the last week: Jack Fry, Raymond Johnson, John Junior Keltchey, Ray White, Joe Smith, Lester Sharp, J. T. Hays, Floyd Boom, Ima Jean Burk, Gladys Cantrell, Adeline Edmiston, Una Fletcher, Adie Lee, Ola Marie McGuire, Pauline Ryan, Opal Sharp, Ruth Lee Stanberry, Laura Todd, and Murial Johnson.

**HAYES**  
This week is the end of the third month of school. We have enrolled 329 and have 310 belonging at the end of this month; 246 who have been neither absent nor tardy. This speaks for the school interest of the children and patrons as nothing else could.

The first grade under the direction of Miss Grant and Miss Driskell, made some exceptionally good Thanksgiving posters this week. It would be time well spent for any one interested in school work to see the work these little folks are doing not only in art but all other studies as well. They are laying a commendable foundation for future learning and citizenship.

Miss Johnson is making an enviable record in the third grade not only as a teacher in the room but as a director of plays and games for the children at recess.

The girls' chorus is doing splendid work. They are now training for a Christmas operetta and have had more invitations to furnish musical programs for special occasions than they have been able to fill. Anyone who loves music should visit this chorus practice any morning from 8 to 8:30.

The eighth grade has added a new picture to their room this month and have started a collection of pot flowers to make the school look more like home. If you want anything that benefits the school put over with pep, mention it to the boys and girls in the eighth grade.

grade and they will get the work done.  
The girls of the basketball team are in good practice and now ready for match games with any school that wants to play. They lost the game last Tuesday with Irving, but we are ready to play them again. Irving has a good team and plays a good clean game. We always like to play such a team if we do lose.

The boys' basketball team is now in regular practice under the direction of Mr. Williamson. If any of the schools want a game, call up and we will arrange a date.  
We remember the Sunday school contest and see if we can't fly the flag at Hayes.  
We wish to thank Supt. Hickman for the splendid manner in which he is arousing interest in Sunday school by putting on this contest, even though we never get the flag, we feel that we have been greatly benefitted by the Sunday school attendance and work.

**Washington School**  
Sunday school attendance from Washington is increasing steadily. While the percentage of attendance has never reached the desired proportion, records show that from the first, the rate of increase each Sunday has been fairly uniform. Students and friends of the school are going at the campaign seriously and it is believed that the gradual growth will be a lasting one.  
The health program among the grades not regularly enrolled in hygiene classes is going over good. Pupils are recognizing the need and are responding readily to the rules of the campaign. Interest of parents in this work is very evident, and there can be no doubt of the great good that will be accomplished.

Wednesday afternoon was the big day for the tiny tots of grades 1A and 1B for they had the privilege of entertaining their mothers and friends in their first floor workshop. The partition shutters between the two class rooms were thrown up and all gloom and worries were thrown out as the happy kiddies thrilled through this, their first Thanksgiving entertainment. The teachers, Mrs. Timberlake and Miss Holman, had helped them to prepare a program of songs, readings, and other things appropriate to the occasion, which were presented, it is understood, without a single case of stage fright or any other temperamental display with which some of our greatest stage stars are sometimes affected. The little folks were glad to have the visitors, and the many kind expressions of approval of the program were sincerely appreciated.

Reba Smith enrolled in the 6th grade this week.  
Grade 3A, under Miss Little, reports 24 pupils with 100 percent observance of the health rules so far. In keeping with that group's general reputation for doing things well, it might be mentioned, incidentally, that the following did nothing more than average above 90 percent in every subject for the past six weeks: Mary Elizabeth Granger, Elizabeth Parker, Edna Earl King, Alma Fletcher, James Roundtree, Sylvia Lea, Lucille Holley.  
A perfect spelling lesson in the 4th grade means a very bright and shining star by the name of the pupil who presents the lesson. During the past two weeks the following have annexed a brilliant string of ten each: Edna Montrose Goddard, Jessie Pennell, Verna Capps, Lula Bullock, Carmen Smith, Louise Rose.  
Starting their record one week later, but going at a pace that threatens to make the class record sheet look like the sky on a frosty night, the following have won a star every day for the past week: J. D. Scarborough, Alice Ginnis, Leota Carroll, Juanita Deering, Nina Mae Henry and Helen Broderick were out of 7th grade this week on account of illness.

Jean Delaney of 5th grade is visiting with her parents in Arkansas.  
The 8th grade arithmetic class is playing no favorites but is studying every business that involves figures, from banking to baseball percentages. Some time ago, at the close of the period given to the study of banks and money, the class was asked to spend 30 minutes in writing on the subject. Although not previously warned that a written discussion would be called for, each member of the class had enough material to spend the allotted time on, stating facts and figures with which Secretary Mellon or Morgan either could do nothing but agree. This week came from the realm of coin down to concrete.

While the "1:3:6 mixtures" are rather hard to get compounded, the calculations were made by both boys and girls of the class, and so far, not a contractor from Sam Gompers down to Jerry Flaannigan has reported an error in the estimates worked out. Results of frequent review tests indicate that the class is getting the work as they go, and are keeping it in mind.

Arrangements are under way for the Christmas seal sale, which will begin early in next week as can be properly started. The sales will be handled by the pupils, and all parties who are averse to the purchase of seals are warned to avoid salesmen, for the force is one that will get results.

**Willard School Notes**  
The basketball girls of first and second teams went on an outing last Tuesday evening, chaperoned by Mr. Jones and Mr. Bolton. All reported the best outing this season.

The pupils of the B7th competed with the pupils of the same grade of the Irving school in arithmetic last Wednesday. The score was 15 to 12 in Irving's favor. The pupils enjoyed the match to the fullest extent.

We played a game of football with a team of boys from the Washington school, Wednesday afternoon. The score was 6 to 0 in favor of the Willard boys.

The contest between the ward schools as to the greatest percent of pupils in Sunday school is creating some enthusiasm among the pupils of the different schools. Irving seems to think that they own

that flag, but let them be warned now we are after that flag and we will secure it before we stop.  
We have lost a few pupils since our last report, but have gained more than lost. Our last report was 296; now 308.

We still have some out on account of illness.  
The following is a complete report of those that have been in school every day and have not been absent nor tardy, and a list of those that have an average of 90 or above.  
**EIGHTH GRADE:**  
Robert Bradley, Helen Bryne, Ruth Bryan, Baby Lou Frost, Velma Kulkendall, Doris Shipman, Craig Van Curia, Florence Grifford, Robert Owens Farney, May Gault, George Callis, J. M. Cobb, Edwin Drummond, J. I. Dodd, eulah Kilpatrick, Maxine Sarrett, Ruby Rice, John D. Rockefeller, Mekle Quales, Annie Ruth Wyatt, Horner Wadlington, Bernice Newton.

**SEVENTH GRADE:**  
Pauline Antle, Troy Azlain, Roy Coates, Mildred Goins, Mamie Halley, Reba Mallory, Mary McKinley, Lois Watson, Hugh Lee Wyatt, Frances Cahill.  
**SIXTH GRADE:**  
Bethl Barnard, Mamie Carter, Harold Criswell, J. C. Emmerson, Charles Drummond, Fannie Floyd Willis Fisher, Jack Sparks, Wilbur Thomas, Esteline Thompson, R. T. Walker, Raymond Woods.

**FIFTH GRADE:**  
Milton Bradley, Cedric Bourne, Shelton Dandridge, Manard Fisher, Marjorie Goin, Stephens Nacher, Robert Shaw, Horace Newton, Helen Patterson, Helen Sarrett, Juanita Sherley, Esther Wilborn.  
**FOURTH GRADE:**  
Joe Bryan, Tilton Fox, Billie Bryan, Frances Chambers, Inez Griffith, Juanita Gaar, Elizabeth Logston, Louise Shipman, Edith Azlian, Alice Marie Aggle.  
**THIRD GRADE:**  
Dorwin Bumpers, Morgan Wood, Robert Wood, Louise Cohn, Victoria Haley, Oleta Wilmoth, Charles Watson, Emma Williams.

**SECOND GRADE:**  
Commie Shilings, Mildred Thomas, Glen Watson, Clara Leo Bradshaw, Thoma Wallace, Raymond Nager, Joneva Dodd, Willie Frue Logston, Ruby Shipman, Doris Sanders, Joy Wilborn.  
**FIRST GRADE:**  
Jerry Drummond, Baily Bobbitt, Virginia Harris, Hazel Henry, Garnet Tunnell, Raymond Maples, Pauline Walker, Harlow Cunningham, Charles Carter, B. L. Stevens, Charley Sparks, George Cartwright, Juanita Jones.

In reviewing work done in the 1st B, since school began in September, Charley Sparks, recited perfectly every phonic combination that has been taught in number work. The following recited perfectly all combinations that have been taught up to the present:  
Garnet Tunnell, Juanita Jones, John Haney, Foster Cruise, Cecil Jackson, Ethel, Stennet, Charley Sparks, Pauline Walker, and Zelma Mae White. These pupils all made good records in reading for the past six weeks.

The pupils have a neat poster to illustrate some of the things they have learned about health.  
The health crusade work that is being tried in the school is doing some fine work. And all who are taking the work at the college with Miss Grisham are enjoying the work they are doing in the school with their own pupils.  
The following pupils have an average of 90 percent or above:  
**EIGHTH GRADE:**  
Ellen Barney, Robert Bradley, Ruth Bryan, Helen Bryne, J. M. Cobb, Harriette Dee Combs, Zelma Daily, Baby Lou Frost, May Gault, Florene Grifford, Daniel Heard, Christine Hall, Beulah Kilpatrick, Wilda McClure, Ruby Rice, Maxine Sarrett, Doris Shipman, Ganet Souder, Bill Van Meter, Craig Van Curia, Annie Ruth Wyatt, Josephine White, Lester Willoughby, Phillip Wimbish.

**SEVENTH GRADE:**  
Pauline Antlers, Troy Azlian, Roy Coates, Mamie Halley, Barnard Herrin, Reba Mallory, Lois Watson, Hazel Wilson, Bonita Willoughby, Hugh Lee Wyatt, Frances Cahill.  
**SIXTH GRADE:**  
Gepgx(sDee OnnP IY-  
Fannie Floyd, Gene Bedford, Nina Shipman, Jack Warren, Alston Tredwell, J. C. Emerson, Jack Eads, Johnson Bennett.

**FIFTH GRADE:**  
Doris Watson, Helen Sarrett, Louise Smith, Virginia Griffith, Wilma Byrd, Flora Long, Susie Chapman, Robert Shaw, Cedric Bourne, Shelton Dandridge, Milton Bradley.

**FOURTH GRADE:**  
Murrelle Allen, Inez Griffith, Gwendolyn Herrin, Elizabeth Logston, Louise Shipman, Mary M. Long Britton Wall, Elizabeth Haney, Edith Aslian.

**THIRD GRADE:**

# Oil News

Thompson and Black, section 2-2-5 on the Fine farm, are drilling at 1,290 feet. The 6 1/2 inch casing was set at 1203 feet. Some water has broken in from above, but this is not expected to prove a great handicap.

The Mecca well in section 7-2-8 is shut down at 1550 feet.  
Galloway and others are still shut down in section 15-3-6 on the Dew farm. The depth is 1158.  
Jack Lloyd is having some trouble with 1 1/2 casing at about 3300 feet, in section 6-3-7.  
C. J. Wrightsman still has a casing job at 2710 feet in section 24-4-4, near Center.

The Heiland well in section 4-4-5 on the Hatcher farm is still shut down at 2145 feet.  
The American Oil and Refining company is drilling around 1430 feet in section 3-4-6 on the Breco farm.

The same company is still working to shut off the water which has broken in from above into the gas sand in the well on the McCurry farm in section 16-4-6. It is expected the work will be completed within a few days.

The same company has the rig up across the road on the Bathrope farm in section 9-4-6 and the tools will be moved in as soon as the work is completed on the McCurry farm.

The W. J. Bryan well is around 1400 feet on the Palmer farm in section 18-4-6.  
The Pilgrim Petroleum company is running the 8-inch casing and cleaning out the hole in section 27-4-6. A fishing job has occupied the time of the crew on this well for several weeks, but new hole will be made now.

The Texas Pacific Coal and Oil company and the Pilgrim Petroleum company are underreaming and cleaning out at 1050 in section 31-4-6. The total depth of the hole is 1060.  
Lancaster and others are still shut down on the Norris farm in section 34-4-6, near the city lake. The depth is 2512 feet.

The Floyd O. Howarth well in section 14-4-7 is shut down for fuel at 1060 feet.  
Cleaning out the Hughes well in section 28-4-7 has not yet been completed. The well was shot at a depth of 710 feet.  
LaSelle is still shut down at 1960 feet in section 31-5-5.  
Brinson & Doyle are still fishing for underreamer lugs at 650 feet in section 32-5-5.  
The Texas Pacific company is rigging up on the Ray farm, section 34-5-6.  
Floyd O. Howarth is drilling up underreamer lugs in section 19-5-7 at 2770 feet.  
The Goldline well in section 13-2-3, just across the line in Garvin county is drilling at 660.

**TULSA, Nov. 30.**—A total decrease of 24 total operations occurred in Oklahoma oil fields in the week ending November 22, says the current issue of the Oil Weekly. The largest decrease was in the number of drilling and shut down wells. The total operations were 1,363 as compared with 1,387 for the previous week.

Every department except one showed a decline, the exception being the number of new rigs which was 174. Of the total operations 65 were new locations, 174 new rigs,

731 drilling wells, 307 shut down wells and 76 completions.  
The Wewoka-Cromwell district continued to lead in total number of operations with 367. However it lost the lead in one department to Tulsa-Oklmulgee district when the latter reported 21 completions as compared with Wewoka-Cromwell's 14.

Following is the complete summary of the comparative statement as issued in the Oil Weekly, the columns of figures indicate in order district, new locations, new rigs, drilling wells and total operations.

## ELECTRONS FOUND BY RESEARCH MEN

Movements of Smallest Particles of Matter Explained.

(By the Associated Press)

ANN ARBOR, Mich., Nov. 29.—Experiments by which scientists have been able to listen to the movement of electrons, the smallest particles of all matter, were described here today by Dr. A. W. Hull of the research laboratory of the General Electric company at the annual meeting of the American Physical Society.

The vacuum tube amplifier in which the amplification can be reached, makes this possible Dr. Hull stated. The sound produced by the electrons is produced by bombardment of the plate by electrons, released from the hot filament. It is these electrons, which carry the current and which make the operations of the tube possible. The noise is therefore a fundamental property of electron emission, a characteristic of the electron, according to Dr. Hull. The experiments have been conducted jointly by Dr. Hull and Dr. H. H. Williams of the University of Michigan at the university.

The noise, due to the electrical oscillation which is set up by the impacts of the individual electrons on the plate, is known as the Schrot effect. The energy of each blow is extremely minute, but, like rain drops, the energies of the many individual impacts add, and their sum becomes very large. With sufficient amplification Dr. Hull stated, the blows may produce a roar like that of Niagara.

The electron is the unit charge of electricity and the determination of its value is of the utmost importance. The oil drop method, devised by Professor Millikan in the physics laboratory of the University of Chicago, gave science its first accurate measurements of the charge of the electron. Accurate as the experiments are, however, it is desirable that they be checked by some independent method.

Millikan's method of measuring the charge of an electron is based on the influence of gravity and of electric charges on minute oil "droplets." These droplets are so small that the effect of gravity causes them to fall only a quarter of an inch in ten seconds.

In the formation of these small drops with an atomizer occasionally one becomes charged by friction; i.e., it may carry an additional electron. If then the droplet is between two electrical charged plates it will behave differently from the uncharged particles, Dr. Hull stated. Those which are not charged will fall. The charged particles will be attracted to the positive plate. By the use of the proper voltage between the plates, these charged particles can be made to fall more slowly, held stationary, or caused to move upward. If two electrons, instead of one, are held by the droplet, the effect is doubled. Measurements made by this method give the value of the electronic charge very exactly. In recognition of the importance of this work, the Noble prize in science for last year was awarded to Professor Millikan.

Doctors Hull and Williams have measured the charge of the electron in a different way, by means of the Schrot effect, and have opened a field for research which promises to add to the knowledge regarding the electron and its properties.

It was not such a long time ago that the electron was unknown, the speaker declared. First scientists had the molecule, itself so small that man's ability ever, to see even one of the largest may seriously be doubted. Then came the atom, the minute integral part of the molecule. For along time the atom was considered as the ultimate particle of matter. But each element presents a different atom. Science was not content to rest. It sought to connect all phenomena, and the electron was the result.

It was discovered that all matter is composed of electrons, the different substances resulting from the different properties possessed by the atoms according to the number and arrangement of the electrons they contain.

## Woman to Head Preservation Move in State

(By the Associated Press)

YALE, Nov. 29.—Behind the call of Mrs. F. B. Hancock of this city, for the first conservation congress in Oklahoma, is the desire of club women of the state of the perpetuation of the plan by which representatives of the state government, educational institutions and civic organizations will meet together each year to discuss the preservation of the state's resources.

Mrs. Hancock, chairman of the conservation committee of the Oklahoma Federation of Women's clubs, called the conference to meet in Oklahoma City, December 16 and 17. According to Mrs. Hancock, leaders in every line of endeavor of the state will assemble to determine what the state is wasting and what steps can be taken to reduce the waste.

"Oklahoma, one of the richest states in the union in natural resources and in man power, is wasting both," Mrs. Hancock said. "We do not get the most out of our citizens and they, in turn, do not exact enough from the state and society. There can be, of course, improvement in our industrial system, but there is room for greater improvement in educational, eleemosynary and social betterment lives."

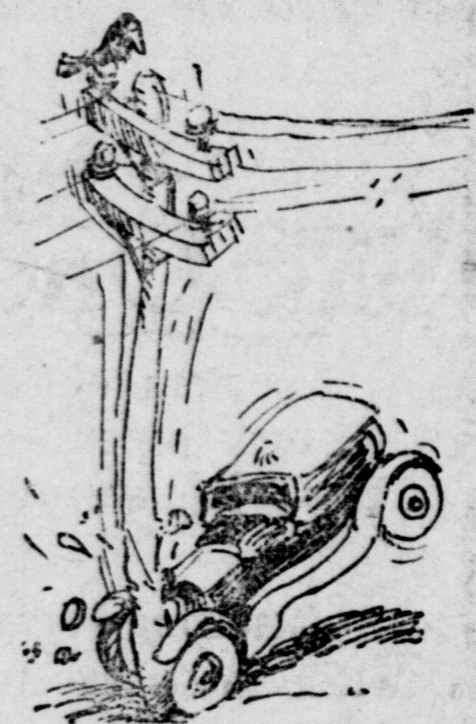

"Oklahoma is a wasteful state and it is our aim to attempt to work out a permanent method of reducing that waste."

Among the prominent Oklahomans who will address the congress are:

Governor Trap, former Governor J. B. A. Robertson, M. A. Nash, superintendent of public instruction, J. A. Whitehurst, president of the board of agriculture, Eugene P. Gum, secretary of the Oklahoma Bankers association, Dr. Winnie Sanger, president of the Oklahoma Federation of Women's clubs, Dr. Bradford Knapp, president of the Oklahoma A. and M. College and Miss Edith Johnson, staff writer on the Oklahoma City Daily Oklahoman.

### Found Dead in Bath tub

BLACKWELL, Nov. 29.—Otto Walcher, 21, son of R. Q. Walcher who lives several miles of this city was found dead in a bathtub at the home of his cousin F. A. Walcher in Blackwell at 1:30 this morning. His death was due to heart failure, according to physicians who examined the body.

### HOME EDUCATION

"The Child's First School is the Family"—Froebel. Issued by the National Kindergarten Association, 8 West 40th Street, New York City. **Terror Hang-Over from Childhood**—The women were grouped about the tea table. The talk had drifted to "fear." One of the younger women turned to Grace Maitland, a beautiful white-haired woman.

"Miss Maitland, did you really stay out in the woods in your camp, alone? Did you walk along that beach alone at 11 o'clock at night?" "Why of course," Miss Maitland deftly broke her slice of cinnamon toast. "I have done that many times; I have never been afraid, in that way, in all my life."

"I'd die of fright before I got half way to camp, let alone staying there by myself all night," shivered the first speaker.

Thelma Thorsen, a well known musician, set her teacup down thoughtfully. Her eyes were hungrily envious as she stared at Miss Maitland.

"Do you know," she remarked, "I think that would be as near heaven as one could hope to get on earth—to have no fear. Not to fear the dark, not to fear silence, not to be dependent on other people, just not to be afraid. It must be truly wonderful, I confess I envy you."

Miss Maitland was surprised and a bit abashed before the intensity of feeling displayed by Thelma Thorsen.

"You probably are just as unafraid as I, Thelma," she replied a bit lamely. "You've never put yourself to the test."

"O, but I have!" exclaimed Thelma. "That's why I know! All the while I am suffering from fear because of the dark I know perfectly well that I am being silly but I can help it. That fear is stronger than I; it is a terror hang-over from childhood. There was an older girl who used to tell me that ghosts lurked in the dark and that they tapped on the windows. Since then I've learned that those ghost taps, the dread of which from that time on made the darkness intolerable to me, were but the rattling of dry branches against the window pane. My mind has long known the explanation perfectly well, but to this day if I am in a dark room and hear a tapping sound, my heart jumps into my throat and I am shaken with terror. Then, instead of being punished in a rational manner when I did wrong the threat was held out to me that brownies would take my best doll if I misbehaved or the Snickerbosh, a fictitious bogey in our household, would get me."

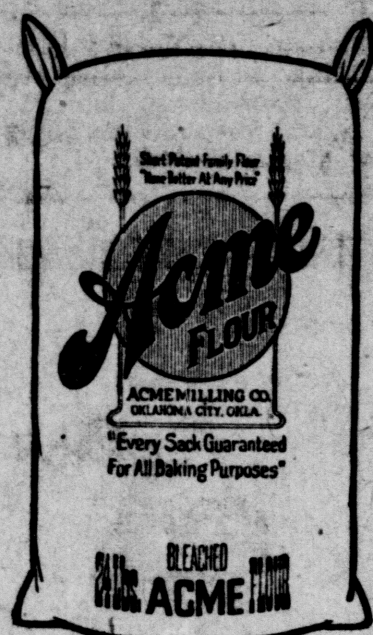

Thelma Thorsen's blue eyes were cold as ice as she related those memories of a terrified childhood. "My mother," she continued, "probably meant to be kind; she was 'tender-hearted' and did not have the courage to exact obedience except by such threats. She never knew what torture she inflicted, but I have never ceased to suffer from the effects of her method; my childhood was fear-ridden, and my life today is less efficient and worth while because of it."

"I think it is due to my mother's wiser method that I have never known fear," replied Miss Maitland

quietly. "My mother was one of the bravest persons I ever knew. She had no fear of mice, lightning, dark, tramps nor any of the dozen and one bogey-ideas that most women have and pass on to their children, nor would she permit anyone to frighten us."

"Lucky you," smiled Thelma tremulously, as they gathered up gloves and purses.—Manthel Howe.

## Entertain Thanksgiving

Mr. and Mrs. Sam Beeker were hostess to Mr. and Mrs. P. S. Case and Mr. and Mrs. Harry Hagar at dinner on Thanksgiving day.

## MISS McNEIL ENTERTAINS

Miss Ophelia McNeill, 906 East Sixteenth street, entertained with a 6 o'clock dinner, Thursday evening honoring Miss Myrna Kingston of Bristow.

## PRESBYTERIANS TO WORK ON CHRISTMAS PROGRAM

The Presbyterian church choir will be in work Tuesday night on their program for the Christmas services.

## Mrs. Cummings Entertains

Mrs. Isham L. Cummings entertained Saturday afternoon complimenting Mrs. Sinton Woods of Okmulgee, Mrs. Percy Riggins of Okmulgee and Miss Ruth Mount of Ada. Five tables of bridge players were guests.

## Benefit Bridge Given

The benefit bridge given at the Convention Hall Friday afternoon under the management of the American Legion Auxiliary was a decided success. A very pleasant afternoon was enjoyed by the players and the sum netted was gratifying to those having charge of the finance department of the organization.

## MR. and MRS. CLAUDE RODARMEL HAVE THANKSGIVING GUESTS

Mr. and Mrs. Claude Rodarmel, 811 South Broadway, had as their Thanksgiving guests Tuesday evening at 6 o'clock, Mr. and Mrs. Calhoun Sparks, Dr. Katherine Brydia and Mr. Brydia, Mr. and Mrs. W. H. Ebey, Mr. and Mrs. W. W. Sledge, and Mr. and Mrs. T. B. Blake.

After dinner hours were spent in a game of bridge at which Mrs. W. W. Sledge was high score winner.

## MR. and MRS. SHELTON ENTERTAIN AT BRIDGE

Mr. and Mrs. W. T. Shelton, 1423 South Johnson, entertained at bridge Monday evening honoring Mr. J. B. Cummings of Oklahoma City, who is a guest of his son, Dr. Isham Cummings and wife.

A salad course was served to the following couples: Mr. and Mrs. Sam Beeker, Mr. and Mrs. Harry Hagar, Mr. and Mrs. L. M. King, Mr. and Mrs. Jim Duncan, Mr. and Mrs. J. L. Barringer, Mr. and Mrs. P. S. Case, Mr. and Mrs. C. J. Skirvin, and Mr. and Mrs. Souders.

## MRS. W. H. EBEE ENTERTAINS TUESDAY AND WEDNESDAY

Mrs. W. H. Ebey, 130 West Seventeenth, was hostess to the Tuesday and Wednesday Bridge clubs when Mrs. C. A. Galbreath, Mrs. Byron Sledge, Mrs. A. W. Parker and Mrs. Bob Galbreath were substitute guests for Tuesday afternoon and Mrs. N. B. Haney, Mrs. C. A. Galbreath and Mrs. T. B. Blake substitutes for Wednesday afternoon. High scores were made by Mrs. Ben McKinley Tuesday afternoon and Mrs. T. B. Blake Wednesday afternoon.

## The Forum

The Forum literary society met as usual last Monday night. The president was absent and Denton Floyd, vice president, acted as chairman. The following program was rendered to a good crowd.

Song, assembly.  
Scripture reading.—Chaplain.  
Reading of the minutes.—Secretary.

Talk on "A Visit to Henry Ford's Plant"—Glendale Scott.

Reading, Mrs. Snow.  
Results of last election.—A. E. Harrel.

Quartet, Messrs Rogers, Hall, Hendricks and Frost.  
Everybody invited to visit the Forum and see the good work it is doing.

## MENASCO-VELTSCHY

Miss Fredda Menasco of Okmulgee and Mr. Ed Veltshy of Ada were united in marriage, Friday night about 9 o'clock at the home of Rev. McCain, Rev. Mc Cain performing the ceremony. Mr. and Mrs. R. W. Fowler, Miss Armita Little and Mr. Bud Duncan were present for the ceremony.

The bride is the daughter of Mr. and Mrs. Menasco of Beggs, formerly of Ada, where she attended high school.

Mr. Veltshy is the son of Mr. and Mrs. E. E. Veltshy of 526 East Thirteenth street. He formerly had an interest in the Liberty, Cafe.

They left for Okmulgee and Beggs for a few days before going to Healdton where they will make their future home.

The young couple have a host of friends here who wish them a long and happy life together.

## Christmas Carol Singing is Spreading Over Country

The beautiful custom of carolling at Christmas time, one of the charms of Old England and Germany, has taken a firm foothold in America.

In a city like Boston, where Beacon Hill on Christmas Eve lights up myriads of candles and joyous throngs enliven the streets, where every door stands open in welcome, the real feeling of what Christmas carolling can do goes out through the entire community.

Musical clubs, public school music supervisors, superintendents and nurses in hospitals, and everyone who takes upon himself the labor of drilling a few singers in carol

sides the debating, Ada Hi will be well represented in competition with other first-class high schools in original oration, extempore speaking, reading and standard oration, which will involve speaking activity of twelve students. It is probable that the district interscholastic meet there will be a new contest—that of dramatization and presentation of some standard classic. This contest will demand work of a still larger number of students.

British engineers have begun building a dam across the Indus river in India, which is designed to irrigate six million acres of land now mostly desert.

## SECTION OF LAND IN PANHANDLE LITIGATION

HOLLIS, Okla., Nov. 29.—A sector of land, 110 miles long and several miles wide at its widest point, under the dominion of five nations, since wrested from the Indians, is involved in the Panhandle boundary dispute between Texas and Oklahoma.

Should Texas win its contention that the boundary between the Lone Star State and Oklahoma on the

west as irregularly surveyed when the government in 1859 set aside the Indian Territory for its aborigine wards, Oklahoma will lose some 30,000 acres of farm land and several thousand citizens. Several small towns are in the involved area.

The land, originally a part of the Louisiana Purchase, passed to the dominion of Spain in 1819 when the United States acquired the French territory of Louisiana. The terms of the Franco-American treaty provided that the boundary between the United States and the Spanish territory of Mexico was the 100 meridian. In 1821 Mexico threw off the Spanish yoke and the strip of land was under the Mexican re-

public. This continued until 1836, when Texas declared, and won, her independence, and the flag of the Republic of Texas flew over the disputed eliver. At the end of the Mexican war in 1848, the land came into the American union.

Texas contends when the federal survey was made in 1859 the surveyors erroneously moved their line a few miles west of meridian 100, the historic boundary.

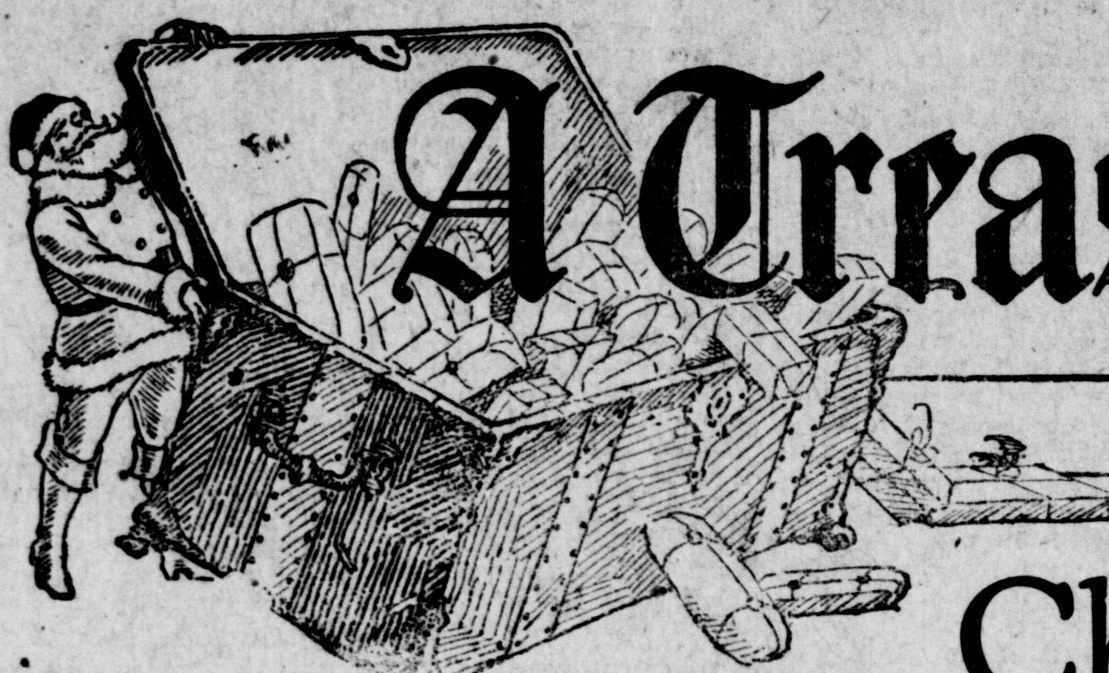

Sections from four counties would be cut if the Texas point is sustained. They are Ellis, Roger Mills, Beckham and Harmon. The disputed line runs from a point below Venus in Beaver county to a point west of Hollis.

## Card of Thanks

We desire to express our sincere thanks to our friends for their many kindnesses during the recent illness and death of our husband and father, H. Bevers.

We also desire to express our sincerest appreciation for the many kind expressions of sympathy and the beautiful floral offerings.

r. M. M. Webster and children spent Thanksgiving at Duncan.

Miss Dorothy Duncan has been the guest of her parents through the Thanksgiving holidays. She will return to Norman today where she is a student in the University.

**Milburn High School  
Prepared to Sweep  
Basketball Season**

MILBURN (Special) Nov. 29 — Milburn high school's basketball team expects to leave its mark in games in the East Central district this year, according to the announcement of Max P. Allen, coach.

Allen is confident that Milburn will place men on the all-district team during the annual conference here and that the team will be a real contender for the cup to be awarded at the East Central basketball conference.

Allen declares that he still has a few open dates on his year's schedule and that he will be glad to fill in the same with matches from over the district.

Allen has five men of last season on his lineup and others including: Mucheloy (captain), Gill, Steele, Kite, Horton, Cravatt, Rice, E. Gill and Owens.

## MARKHAM WOULD ACCEPT MILITARY BUREAU JOB

OKLAHOMA CITY — Although no has been mentioned as the next head of the military bureau of the United States War department, Adjutant General Baird H. Markham, of Oklahoma, definitely has stated he will, under no circumstances, seek the endorsement of the adjutants general of the United States at their Philadelphia convention, December 1, 2, 3, and 4. General Markham declared he had no desire to enlarge the scope of his military efforts, just now and should the dictatorship of the bureau be offered him he would be forced to refuse it. The general admitted, before leaving here yesterday for the East, that several adjutants general had urged him to seek the office.

The military bureau is in direct charge of the various state military departments. The appointment which will be made this year, will be for four years. The adjutant general endorsed by the Philadelphia convention will have an excellent chance to land the office, General Markham said. The appointment is made by the secretary of war, upon the recommendation of the chief of staff.

General Markham and four other members of the Oklahoma guard now are on their way to Philadelphia. After the adjutants general convention, General Markham will attend the war college at Washington. He probably will be gone a month, he said.

Continuing its policy of presenting to the local picturegoers the biggest of cinematic productions, the McSwain theatre, Dec. 3 and 4, presents for the first time Frank Lloyd's First National Picture "The Sea Hawk," adapted from the best seller by Rafael Sabatini, author of "Scaramouche," and regarded by critics and producers as the greatest sea story ever brought to the silver sheet.

Dealing with a spectacular romance and the piracy of the late

Sixteenth Century English, Spanish and Moors, "The Sea Hawk" is reputed to possess an extraordinary amount of thrilling incidents, red blooded action and tender romance amid many quaint and massive settings and in the hands of the producer of "Ashes of Vengeance," "Les Misérables," "Black Oxen" and "Madame X," the Sabatini narrative is said to have lost none of its highly entertaining drama, but rather to have been greatly enhanced in its adaptation to the screen.

## Welcome to Toyland

What a thrilling place Toyland is! Little toy trains shriek and whistle as they tear madly through tunnels and across country, little racing cars honk wildly and show their speed, cowboys, Indians and policemen are all dashing madly about; in fact so much is happening in Toyland you can't keep track of it all. Come on boys and girls—we're off to Toyland to—

## Shaw's Toyland Basement

### Hurry Up Don't miss this

Oh look, it's coming, a big red train. See the engine and little coal car?

Watch it shoot right over the bridge

Jump in and we'll travel far.

Now Mr. Zu Zu the circus clown

Is really a prefect old dear

He's volunteered to act as a guide

Come on let's gather near.

Right over there lives the Felix Cat

And next door is Uncle Walt

Andy Gump's in the neighborhood, too

But the cat says it's not his fault.

And now you've seen this wonderful land

And all the toys on display

You may visit Santa and tell him yourself

What to leave on Christmas day.

Real Baby Dolls, dressed and looks just like a real baby.

**2.95**

Rag-a-muffin Dolls, companions to their friends, the cat and the dog.

**50c**

Dolls of every other description, with close resemblance to real girl and baby dolls.

**95c and up**

Every Christmas stocking should hold some Story Book, or Tale of Yore.

**25c and 50c**

And then there are Schoenhut Toys, and other games of Lotto, Soldiers and the like.

**25c and up**

And Iron and Mechanical Toys galore.

You can't miss a whole jug full of fun—Carts, Jiggers and hundred of other comical things.

**25c and up**

### Look!

**Look! Look!**

The Teddy Bears are right on hand

And all the dollies, too

You'll really have to pinch quite hard

To be sure enough it's you!

Little red soldiers galavant by

In uniforms ever so gay

The bugles blow and the drums beat loud

Merry Christmas is what they say!

Now Toyland is really a very gay place

That you can easily see,

There are rabbits and ducks and elephants, too

Just to play with you and me.

What is that! Do you hear it, too?

It sounds like a great big bear

It's started the dollies to call "Ma-Ma"

Now I hardly call that fair.

### Chapter III

Wee-wee and Leoni.

When Renshaw awoke, the October day was sending its comforting light through his windows. He turned over and blinked drowsily. His first sensation was one of physical well-being, new and agreeable. His next was incredulity. He had slept—had actually slept for hours! His third, the companion of memory, was a slow-growing, deep-rooted, and sardonic amusement at his own expense.

What an ass he had been the night before! In the light that was coolly picking out the pattern of the oriental rug upon the polished floor, his doubts and forebodings about Tawno Ker scurried out of sight like frightened chickens. He almost doubted that he had had them. There was no question whatever, he told himself, that he had imagined most, if not all, of the occurrences that had disturbed him. That dragging thing on the floor, for example—

He sat up, blinked again, and yawned widely. His big room was wonderfully cheerful, and part of its brightness, he now discovered, was due to the coloring that still lingered on some of the maple trees whose branches almost touched his windows. He got out of bed, turned on a cold bath, and made his morning toilet with an increasing sense of acquiescence in the fact of living.

As he shaved, his lips almost puckered into a smile at the new expression of the face that confronted him in his mirror. At last he had taken in the fact, so hard to grasp the day before, that he had cast from his shoulders the Atlas-like weight they had been carrying. His future, for a year, was assured. He was a being without responsibility. In this environment, so isolated, yet so home-like and so peaceful, he could accept his cure. At the end of the year—for the first time he told this to himself with entire conviction—he would be a well man, and would know he was! And what the deuce was the good of being a well man if one didn't know he was well?

He went down to breakfast with a vigor in his steps that was not wholly assumed. At the foot of the staircase he paused, not quite certain whether to turn into the living room or go on to the dining room. Breakfast might not be ready. He had not remembered, the night before, to ask at what hour it was served. As he hesitated, the complacent personality of Jenks came toward him from the rear of the hall. Renshaw nodded.

"Good morning, Jenks. What's the breakfast hour here?"

"Breakfast's on now, sir." Jenks followed Renshaw into the room, where a young footman the latter had not seen before was arranging chafing dishes on the sideboard. This youth suspended his labors, and in response to an eye-flash from Jenks hastened to draw out a chair for the newcomer.

"We follow the English plan, sir," Jenks observed, with a steadfast eye on the movements of his subordinate. "The members of the family come in when they like and help themselves from the hot dishes on the sideboard. But if you don't find just what you want, sir, James, here, will fetch it from the kitchen."

Renshaw nodded again. "Thanks," he said, and strolled over to the row of silver dishes whose contents shimmered above spirit-lamps. He lifted the lid of each in turn, finding a cereal in one, scrambled eggs and bacon in another, and kidneys in a third. He helped himself to eggs and bacon and returned to the table, where James poured his coffee, lifted the cover of the marmalade dish, and set a plate of orange marmalade within convenient reach.

"Anything else, sir?" "Nothing, thanks. I'll help myself." James faded away as unobtrusively as a mist before the sun. His manner and service had been perfect. But, notwithstanding Renshaw's seeming absorption in his breakfast, the secretary had been conscious of one thing: not once, while James remained in the room, had the footman removed his eyes from him. They were young eyes—round and clear and rather boyish. They were discreet eyes, which dropped humbly before a superior and which could not meet directly the all-seeing gaze of Jenks. But they were observant eyes, nevertheless, and undoubtedly they had taken in every detail of the new man's dress, manner, and general appearance.

Even as the reflection came to Renshaw, the explanation came with it. Some one, probably Annie, judging by the flutter of that telltale garment had returned after the first alarm and

listened at the side door of the living room when he, Renshaw, had made his unusual proposition. That person had overheard his entire conversation with Campbell, and had grasped the terms under which Renshaw had been taken on. Those terms were sufficient to novel to intrigue any mind, and the gossip they afforded must be nothing short of a heaven-sent blessing to a group of servants in a country house that was miles from anywhere.

He drank the last of his coffee. His appetite had improved with his spirits, and he had eaten a surprising amount of eggs and bacon.

Evidently the Campbells breakfasted late. It was half after eight when he left the dining room, and none of the family had yet appeared. He went out for a stroll in the grounds. There were suggestions of a big estate here—wide, unexplored spaces at the right and left and in the rear. He followed some of them to flower-gardens whose sweet abyssum and dying chrysanthemums were their sole remaining blooms, to vegetable-gardens near the rear of the house, and, finally, to the discovery of a secret walled garden far off at the left, whose entrance was down a flight of stone steps.

He descended the steps with a sensation of expectancy. He liked secret gardens. They had been a fad of his in that remote period when he had been a living man. He was an old sun-dial and trying to make out its almost obliterated inscription, when a small hand crept cunningly into his. He started, then flushed and stared half-resentfully, half-curiously, at the owner of the hand.

It was a very tiny owner, almost a baby. It could not have been much more than thirty months old. It wore a blue "bunny suit" of coat, trousers, cap and leggings, and the cap was drawn so far over its face and ears that only a pair of wide gray eyes, a dot of a nose, and a button of a mouth were visible. As Renshaw stared, the mouth widened into a smile that revealed two deep dimples.

"Hello!" exclaimed Renshaw, in natural surprise.

"Do' moring!" The conversation languished, and the lady, unembarrassed by the fact, filled the pause by lifting her feet and swinging on the gentleman's hand. Renshaw stiffened to meet the strain, and then, after some hesitation, entering the spirit of the game, exerted his strength and lifted her high above the ground. She yelped in ecstasy, and he put her down. With arms upstretched and violently waving, she danced on the path before him.

"Den."

He did it again, this time lifting her higher.

"We-wee dump," she remarked at last.

He did not understand. She pointed to the sun-dial and entered upon a brisk pantomime, which he regarded with an interest deep but unintelligent. She waved both arms increasingly, almost with violence. She bounded into the air like a rubber ball. She whirled in dizzy circles. She appeared to tie herself into knots. And as she did these things, she repeated over and over in passionate accents her original refrain: "We-wee dump!"

"And all the poor child wants," said a voice in critical accents, "is to be put

"And All the Poor Child Wants," Said a Voice in Critical Accents, "is to Be Put on That Sun-Dial So She Can Jump Down."

on that sun-dial so she can jump down."

Renshaw turned so suddenly that he almost upset the infant, who at that instant appeared to be engaged in a fist impersonation of a whirling dervish. She interrupted this to hurl herself upon the neck of the newcomer, who fell on her knees just in time to receive the embrace.

"Is that all she wants?" Renshaw regarded the pair.

Miss Campbell, in a short tweed walking-skirt, a scarlet blazer and a tan-o-shanter to match it, was even lovelier in this perfect setting of her secret garden than she had been in the glory of her warpaint the night before.

"What else did you think she wanted?"

Verity lifted the baby and stood on the flat top of the sun-dial.

"I got a general impression that it included the earth and neighboring planets."

He broke off with a gasp. The young person on the sun-dial had flung herself into space. As far as he was con-

cerned, she would have remained there till she hit the solid earth, for he was stunned by the suddenness of the thing; but the arms of Miss Campbell opened with accustomed precision, and the intrepid infant landed in them with a force that almost knocked the girl over backward.

"Great heavens!" cried Renshaw, as he caught and steadied the victim. "Are you hurt?"

Verity detached herself with dignity from the grasp of his hand on her arm.

"Of course not. That's part of the game," she patiently explained. "You don't know much about children, do you?"

"She's a peach," Renshaw admitted, and wondered at himself. It was so long since he had felt that anything human was a peach. "Who is she?"

"Tell the gentleman who you are."

Verity, again on her knees, was addressing the acrobat, and incidentally, by holding her close, discouraging any further flights till she could catch her breath.

"We-wee," declared the baby.

"Dump."

"Now you know," The girl smiled, not at the young man, but at the child. Her words to him were tossed over her shoulder as indifferently as she might toss crumbs to a bird.

"Is that her name?"

"She thinks it is, so it will do."

"Dump," remarked We-wee with much flourish.

"No, darling. We-wee has jumped enough for one day."

The modulations of Verity's voice as she spoke were wonderfully tender and caressing. Her next words, however, were addressed to him, and it seemed impossible that they were uttered by the same voice. They fell on the raw surfaces of his self-consciousness like broken icebergs.

"My grandfather asked me to give you a message, if I happened to meet you in the grounds," she said. "He has gone to his study, and he will be glad to see you there at your convenience."

Renshaw thanked her, but her eyes drifted past him as detachedly as if he were a pebble in her path. He felt a new uprush of resentment. It was clear that she despised him, and no doubt it was as natural as it was clear. But she needn't show it so plainly! She was as hard as nails, this girl, and as cold as stone. She was the type of girl he had always disliked—self-sufficient, icy and intolerant.

His eyes, as he looked at her, offered a full equivalent for the expression hers had held the night before. He raised his cap in a salute that included both ladies, and strode down the path and up the garden steps with the swing and lightness he had practiced of late.

There was some reflection of these in his spirits. The encounter with the fascinating little beggar in the bunny suit had added to his new sense of well-being. The way she had taken to him was rather nice.

He forgot the beautiful Miss Campbell as absolutely as if she did not exist. He almost forgot that in the study in Tawno Ker his new master awaited him, together with his first intimation of what his duties were to be. His steps slowed down, and the lines of his face, already relaxed, smoothed out still more. Into the empty foreground of his life a definite figure stepped, not the figure of his master, nor the figure of that master's granddaughter, but an adorable little figure in a blue bunny suit—the child who, in the new life he was taking up, was his first friend.

He found Campbell in the latter's study—a comfortable workroom opposite the dining room, at the rear of the wide central hall.

The old man greeted him pleasantly, but with a suggestion of constraint. Faced by the need of putting his new acquisition to work, he was increasingly conscious of the difficulties and embarrassments that might attend that effort. His subconscious resentment against Stanley had grown. His old friend, he had reasoned, had let him in for a lot of trouble and mighty little, if any, comfort.

But Renshaw's appearance was reassuring. He was normal, steady-eyed, ready for duty. His quiet greeting and his strong clasp of the hand that Campbell mechanically extended brought additional comfort. The old man, always susceptible to the atmosphere of others, and as varying as a weather-cock in his own moods, felt a weight drop from his shoulders.

"I hope I haven't dragged you into the house too soon," he said, more naturally; "but there are some pressing letters here—"

"I'm glad of that, sir. The more the better. Shall I take this desk?"

"Can you use a typewriter?"

"Yes, sir."

"That's good. All right, then. Sit down there for the present. We'll fix up something else later. There's a little room off this, here at the side, that I may turn over to you—"

Campbell checked himself. Under the influence of this chap's splendid figure, handsome face and quiet manner he was going too fast. He must not forget that yesterday he had momentarily thought the fellow a madman. Renshaw, his dark eyes on the other's face, read his thoughts, and felt again the sense of sardonic appreciation that was his nearest approach to humor. He sat down in a business-like way, opened the right-hand drawer of the desk, and finding it full of stationery, helped himself to pencils, a notebook and a generous supply of typewriter sheets. Campbell leaned back in his chair, put the tips of his fingers together in an attitude that Renshaw soon learned was characteristic, and appeared to reflect. Subsequently the new secretary discovered

that this attitude usually preceded one of Campbell's half-dozen daily "cat-naps" or his most energetic mental efforts. The trouble was that one was never sure which manifestation would follow it.

"You don't take shorthand notes, do you?" Campbell inquired at last.

"No, sir. It's only by a happy chance that I can run a typewriter. I learned it lately to—to kill time."

"You'll kill a great deal of time with it here," Campbell prophesied, with a rare-free chuckle. "I am rather glad you don't know shorthand," he confessed. "I am not up to much dictation. I will tell you what to say, and you will put it in your own words."

"Very well, sir."

Campbell, his eyes still on his thin old fingers, abruptly began his task.

"Write to Stanley and tell him to come down for this week-end. It is time the old fraud looked me over. I believe he is afraid I may live longer than he does, so he has decided to let me die of neglect. Ask him if that theory is correct."

"Tell S. B. Miller his plumbing is a disgrace to his profession. If we have any more trouble with those bathrooms I'm going to sue him. Tell the Reverend H. B. Sheppard that I will contribute a thousand dollars toward his project if he can get each of nine other men to give the same amount. I know he can, but the effort will keep him busy for a week or two and I'll have some peace. Tell Jarvis & Company I have not yet received their winter catalogue. Not that I expect to buy anything from them, for I have discovered that they are deadbeats; but I like to compare their prices with the prices of their competitors."

"Tell H. C. Cohen I want him to come down early in January and help me with my income-tax statement. I want it off my mind. He charges a hundred dollars and he oozes oil as he talks, but he saved me at least ten thousand last year by showing me my rights, though my native land is rapidly taking all I've got. Tell William Shipman his proposition does not interest me at present. It would not interest any intelligent human being at any time, but we'll let him find that out."

"Tell George Bolton I will contribute five thousand dollars to the Princeton fund, and advise him to get after some of the rest as vigorously as he is chasing me up. Three of my classmates are still alive, but he appears to think they're dead. Tell him Stanley's more alive than I am. Tell Brown & Robinson to send a man down with samples, and I hope they'll show more discretion about it than they did last spring. After all, I am a country gentleman and not a moving-picture advertisement for their firm. Got that?"

Renshaw said he had, and took advantage of the momentary pause to wipe his brow. An early suspicion that his new job was to be something of a sinecure had perished and was not reborn. It became clear that the old man's correspondence was much in arrears. He gave instructions for letter after letter with increasing zest and rapidity. At the end of two hours of steady note-giving his voice lost its assurance and took on a suggestion of the languor of a phonograph that is running down.

"How many letters have I given you?" he asked.

Renshaw fumbled vaguely among the mass of notes before him.

"Not more than seven or eight hundred, I should say."

"Campbell chuckled.

"I deplore this modern tendency to exaggeration. You've got just enough work for a husky young man to do comfortably before lunch. Go to it. I will leave you in possession of the study. But first telegraph the offices of the Scandinavian line and reserve an outside stateroom on the Frederick, sailing November twenty-second, for—"

"For Madame H-v-o-e-s-i-e-f," he ended slowly, spelling out the name. "That will be all this morning. If time hangs too heavily on your hands I may give you some more this afternoon."

He rose from his chair, stiffly as was his habit, stood still an instant to give his old legs time to accustom themselves to the effort of walking, and then went toward the door. There, with fingers already on the knob, he paused.

"Mr. Renshaw," he began, and stopped.

Renshaw, who had risen when he did, waited in silence. Campbell took a step as if to cross back to him, and Renshaw saved him the journey by joining him at the door. The old man's manner had completely changed. His brisk assurance was gone. He looked and evidently felt uncomfortably self-conscious.

"Mr. Renshaw," he began again, "your household, as I have already told you, is in some respects—a little unusual at present. Possibly Doctor Stanley—ah—prepared you for this fact—"

"Both Doctor Stanley and you yourself, sir, mentioned it," the secretary reminded him.

"Just so. Well—ah—the point is that, as the matter concerns others, I am not able to go into details about it for the moment, much as I dislike any atmosphere of secrecy. So I must count on your discretion to—ah—"

It was clear that for once David Campbell, so fluent up till now, was at a loss for words. Renshaw helped him out.

"To ignore anything I don't understand," he suggested. "That's the idea, isn't it?"

The face of Campbell brightened, but his eyes did not meet the young man's. It was clear that the mystery of the household, whatever it might be, was distasteful to the master of the household. It also seemed clear that his predominant feeling about

it was one of annoyance and not one of anxiety or strain.

"Exactly," he said, with an air of relief. "Please ignore it."

"You may be sure that I shall do so, as far as I can. And, in any event, I shall ask no questions. But—Mr. Campbell—" It was Renshaw who was self-conscious now. His face had taken on the deep, unbecoming flush, his new master had already seen there. "There's one point on which I should like your instructions. Am I to understand that I am not to report to you anything unusual I may see or—or hear? May I assume that you know about it?"

Campbell's self-consciousness gave place to an expression of surprise, mingled with doubt.

"Do you mean that you have already heard or seen anything unusual?" he quickly asked.

Renshaw hesitated. Everything had been so normal, so human, so reassuring this morning, that the experience of the previous night, the noise of that crawling thing in the corridor, already seemed like a dream. Still, this, if ever, was the time to speak.

"Nothing of importance," he said slowly. "Merely some unusual noises in the hall."

"Unusual noises? What kind of noises?"

"Why, rather as if a very heavy weight were being dragged along—that kind of thing."

Renshaw spoke unwillingly. He felt, and looked, rather foolish.

"Perhaps something was," Campbell was himself again, smiling his charmingly whimsical smile. "There's a lot of work to be done in this house. Possibly a trunk was being moved—"

"But—it was midnight."

Campbell raised his eyebrows. Then he laughed.

"I'm afraid we're magnifying trifles," he said good-humoredly. "But I'll say this much before we drop the subject. We have no reason to fear anything that is in the house, and personally I don't believe we have anything to fear from outside. But if you should at any time see suspicious-looking individuals lurking around, in the grounds or on the road, let me know." He broke off with a grimace. "It sounds like melodrama, doesn't it? But the fact is, I suppose we've got to keep our eyes open."

"Very well, sir. Our understanding is that nothing unusual I observe inside the house is to be reported, but that if I see anything suggestive outside I am to tell you about it. Is that right?"

"Yes—I think so. I don't see how anything—That's understood." He decided more briskly; and, opening the door, passed through.

Left alone, Renshaw swung the typewriter up to the top of the desk, turned the small key that held it in place there, and resolutely attacked his mail. It was good to have real work to do, and to know that he could do it. It was good to feel that he was earning his way.

A mild surprise awaited him at noon. He entered the dining room a few minutes after the summons of the luncheon bell, and found not only Campbell, Verity, and Mrs. Pardee at the table, but a strange woman seated at the right of the host. She was a gracious and even majestic woman, with a figure of the late forties, the snow-white hair of seventy, and a dark face and singularly brilliant eyes that might have been thirty-five. She graciously inclined her head when the young man was presented, but did not speak.

Renshaw bowed and took his place in equal silence. This, it appeared, was Madame Hvoesief, whose passage to Europe on the twenty-second he had just engaged. He immediately decided that she was, in some way, a central figure in the mystery to which Campbell and Stanley had referred.

### CHICHESTER'S PILLS

THE DIAMOND BRAND. Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold metallic boxes, sealed with Blue Ribbon. Take no other. Buy of your Druggist or send for FREE LITERATURE. DIAMOND BRAND PILLS, for 25 years known as Best, Safest, Always Reliable. SOLD BY DRUGGISTS EVERYWHERE.

**ONE DEAD AND THREE INJURED IN AUTO CRASH**  
BLACKWELL, Nov. 29.—Al Bennett, 30, is dead with a broken neck and three others injured as a result of an automobile accident near here at an early hour this morning. The injuder are Gladys Butler, Ace Hillhouse, and Gene Rouse. The four were returning from a party in a coupe which was overturned and rolled off an embankment at a bridge over Chickasha river north of this city. Hillhouse, driver of the coupe, who is being held at the city jail for investigation, declared he does not remember anything about an accident.

## Tulsa Judge Was Dishwasher Before Answering Bench Call

TULSA, Nov. 28.—Horatio Alger Jr., boys' author, if he used Albert C. Hunt, district judge and justice-elect of the state supreme court, as a hero of the inspirational tale probably would entitle it "From Dishwasher to Supreme Court Bench."

He did, at one time in his life wash dishes, and the plate ablation episode is but one of many unusual incidents in the judge's life. According to his father W. T. Hunt, Tulsa attorney, it was just a part of a stiff course in the school of hard knocks, which supplemented the education he received in recognized institutions of learning.

Albert Clarence Hunt was born in Clarksville, Ark., July 30, 1888. When he was seven years old his father moved to Wagoner, Okla., where he took up the practice of law. Here the youngster went to school and gained his first experience in taking care of himself.

Wagoner, a small town, had but one newspaper in the 90's. It was known as the "Daily Sayings." Young Hunt was the active part of the circulation department and for several years carried a newspaper route that covered the entire town. He delivered his newspapers on horseback.

After he had finished public school in Wagoner, young Hunt was sent to the Missouri Military academy at Mexico, Mo. At school he was one of the outstanding students and was editor of the school paper for a year. He later took the law course at Vanderbilt university in Nashville. He then went back to his home in Wagoner and went into the law practice with his father. From 1911 until 1915 he was city attorney of Wagoner being only 23 years old when he entered office.

He moved to Tulsa in 1917 and in 1921 was elected district judge. At that time he was said to be the youngest district judge in the state. He was re-elected to that office and continues on that bench, pending ascension to the supreme court.

The record of Judge Hunt while on the district bench may be found in the file of any Tulsa newspaper. During 1922 and 1923 he attracted state-wide attention because of his frequent use of the injunction to

close down resorts disregarded the prohibition laws. When he sentenced a man convicted of highway robbery to 5 years in the penitentiary, police reports showed an immediate decline in holdups. In 1922 he was urged to run for congress but declined not to make the race.

Judge Hunt's experience as a dishwasher was related by his father. "When Albert was about 15 years old," Mr. Hunt said, "he came to me and asked permission to go to Colorado. He said he could work his way there so I gave him my permission. He and a companion then started to follow the harvesting. They worked their way through Kansas and finally arrived at Colorado Springs. There they found themselves without funds and without work. Albert went to the manager of one of the largest hotels in the city.

"I want work and I'll do anything," he told the manager.

"Can you wash dishes?" he was asked. Albert said he could and was given a job in basement of hotel. For this he received meals and a place to sleep. His companion got a job as bell boy. Albert was not satisfied with the dishwashing job but held on for about 10 days until

he obtained a job as side dispenser. He worked at that until time to return to school."

Judge Hunt displayed an early interest in politics, according to his father, and was a close reader of the newspapers. When he was 16 years old he attended his first national convention. The Democratic convention was held in St. Louis in 1904 and young Hunt decided he wanted to attend. He spoke to his father about the matter and was told that the cost of obtaining a seat at the convention was prohibitive. He replied that he felt sure he could get into the convention if he could get to St. Louis. His father supplied him with the necessary funds and the boy left for the big city. He managed to attend every session by making friends with the gatekeepers who became interested in the Oklahoma lad who had come so far to attend the convention.

Judge Hunt married Miss Essie Hayden of Choteau. They have two children. Hunt attends the Methodist Episcopal church. He is a member of the Kiwanis club, Tulsa chamber of commerce and is a Mason. The judge has no hobbies.

## Jinx Rides With Tigers on Trips

Coach Joe Milam, mentor of East Central's Tigers, is determined to figure in the winning columns of Oklahoma collegiate football next season. He backs his determination with the announcements that not a single graduation from his list of letter men will alter the lineup he has maintained throughout the season just closed.

East Central suffered from graduation last year when six of the stars of the team graduated or turned their attention to larger schools over the country, but in suffering the loss, the field was cleared for a crew of underclassmen who took up their moleskins for battle this year.

Captain Capps, King, Kelley, Johnson, and Asbury, who starred in conference games this year, will be back unless voluntary desertion from the crew is adopted by those carrying East Central's colors in the conference throughout the season just closed. Milam has reason to be optimistic over the prospects of the 1925 football season.

Milam is also claiming a majority

of the stars of the Ada high school team, who created a sensation before their defeat at the hands of Henryetta on Armistice day. Milam declares that East Central will attract a number of stars from this section of the state, who have been carving records on the grid ladder this season.

Milam attributes his comparative poor showing this season to the fact that Oklahoma collegiate teams are far more superior this year to seasons past. The Tiger coach believes that East Central had an unusually good team in the season just past but also declares that the three leading teams of the conference stepped high above their pace in the 1924 season. Central and Southeastern teams were the most difficult problems in the grid path of the past season, Milam believes. Milam is unable to accord O. B. U. with being a real test of the strength of his team, since the Bisons were barely able to nose over a victory of 14 to 0 on a muddy field with a fresh change of cleats to aid them.

Milam's team carried a jinx with it on its foreign conquests, losing every game played away from home. On the other hand, the East Central team rallied on every home game and outplayed all opponents on the home field.

The Tigers suffered the breaks in their first game and lost to Phillips. The next game was also dropped to Central, which piled up the largest score of the season against them. Weatherford followed in the list of losses for East Central but Oklahoma City College journeyed to Ada to fall before Milam's team. Northeastern followed with another victory for East Central. The Bisons were next to down the Tigers at Shawnee. Northwestern were easy victims in the last game on the Ada field, but East Central dropped the final game to Southeastern at Durant in the annual Turkey Day clash.

In Captain Capps, and Turner King, both tackles, Milam boasts two of the best in the state.

## Duncan Boy Visitor Shot in Fracas

(By the Associated Press)

DUNCAN, Nov. 29.—Robert Bennett, 15, of Alabama, who is visiting his grandmother here will probably will be hard to convince that Oklahoma is not the "wild and woolly" commonwealth that the movies and fiction writers picture it.

Robert was a spectator when a prisoner being escorted to a barber shop by Otis Holder, jailer, broke away and ran. Holder started shooting and one of the bullets plowed a furrow across young Bennett's stomach. The youth was taken to a hospital where it was found that his life had been saved by a fraction of an inch. His injury is not regarded as serious. The prisoner was recaptured.

Girl Sleeps Eleven Days

NEW ORLEANS, Nov. 29.—After an unbroken sleep of 11 days Mamie Englehardt 10, opened her eyes at 3 o'clock this morning and asked for a glass of water. She appeared perfectly normal and did not know she had slept more than one night.

The girl fell into a state of coma 11 days ago after showing signs of weariness. Previous to that time she would fall asleep while working on her school books, during the period she slept she spoke only a word or two. The family physician did not make public his diagnosis.

Blue Mound

Sunday school wasn't very well attended Sunday; only a small crowd present, but we hope it will be warm next Sunday so everyone can come.

Almost everyone in this community is through picking cotton and are looking forward to the time of hog killing as some seem to be hungry for fresh meat after a year of hard work.

S. J. Cantwell went to Ada Saturday.

Jim Ashley and son, Bob, went to Ada Friday.

Jim Cargill went to Ada Saturday.

Lloyd Cargill returned home from Plaxton, Okla., Saturday where he has been picking cotton.

Jim Thompson went to Ada Saturday.

C. H. Dobson returned home from Frederick where he has been picking cotton.

J. W. Cook from Frederick, spent Friday night with G. W. Allen and family.

Mrs. Ethel Cantrell spent Friday and Saturday night with her mother Mrs. Dobson and family.

Effie Cantrell spent Wednesday night with Allie Dobson.

Clara Hart spent Wednesday night with Grace Dobson.

Prayer meeting at C. J. Jordan's Wednesday night was well attended.

Allie Dobson spent Sunday night with Ora Lee Ashley.

Annie Poe and Zella Ashley spent Sunday with Mrs. Lula Minor of Pleasant Valley.

Rarena Unsell and little daughter Virginia Lee, spent Sunday with Mrs. Crisp and family.

Eula Cook from Frederick spent Friday night with Grace Dobson.

Tom and Bert Huddleston took dinner with Jasper Allen Sunday.

Ephram Hall of Laxton was in this community Sunday.

Grace Dobson spent Sunday evening with Lets and Vallier Cantrell.

## Officials Fail to Reveal Information on Bankers' Killing

(By the Associated Press)

SAN GABRIEL, Cal., Nov. 29.—Sheriff W. A. Shay and the deputy district attorney left here early today without revealing what, if any, new evidence of importance they had obtained from a second autopsy on the body of William R. Lee, slain bank president, or from the opening of a safe deposit box held jointly by Fee and Miss Mary Watkins an affectionate friend near whose San Bernardino mountain cabin his body was found Tuesday.

Fee's will was taken from his personal safety deposit box and found to bequeath his estate to his widow and daughter. Sheriff Shay took with him certain letters which he admitted had been written by Miss Watkins. She yesterday retained an attorney and last night left with him for San Bernardino where she plans to remain in seclusion.

## Egyptian Situation Not Serious, Claims British Officials

(By the Associated Press)

LONDON, Nov. 29.—The Egyptian situation as the result of the latest message was described in official quarters in London this afternoon as serious but not critical. Interest in the Sudan was said apparently to have been quieted.

CAIRO, Nov. 29.—The surviving mutineers at Khartoum have given in to the British it was officially announced here this afternoon.

The mutiny among the troops was confined to two platoons of the Eleventh Sudanese and the mutineers who survived surrendered after a bombardment of compound of the Egyptian army hospital.

Two British officers were killed and eight men wounded.

## MIDDLE AGED WOMAN FOUND ON BLANKET OF MONEY

(By the Associated Press)

NEW YORK, Nov. 29.—A middle aged woman of apparent refinement was held at a Brooklyn hospital today after being found by policemen lying face upward in a field under a \$700 pile of \$1 and \$5 bank notes. Her chest was fully protected against the cold by \$700 worth of Liberty bonds and a bank book showing deposits of 1,200 in the name of Minnie Griffin.

She said her name was Minnie Griffin, but at the address she gave as her home, it was said she was not known. She offered no explanation of her blanket of money.

## THREE KILLED, FOURTH HURT IN COLORADO SHOOTING

(By the Associated Press)

MINTURN, Colo., Nov. 28.—Three persons are dead and a fourth wounded as a result of a shooting affray here last night in which John Cordova shot and killed Patrolio Parvis, his 16-year-old step-daughter, and wounded the girl's mother. Then Cordova fired a bullet into his own brain and died.

"Cordova was in love with my daughter," Mrs. Cordova said. "But we had ordered him from the house."

Fire destroyed 43 automobiles in Oklahoma in 1923.

## SENATOR BRANDAGEE OWED \$180,000; ASSETS \$20,000

WASHINGTON. — Light was thrown on the financial affairs of Senator Frank B. Brandegee of Connecticut, when W. Don Lundy, his secretary, in behalf of himself and the National Bank of Commerce of New London, Conn., filed in the Probate Court today a petition for ancillary letters of administration of the estate. Senator Brandegee committed suicide in his residence Oct. 14.

At the time of Senator Brandegee's death it became known that instead of being wealthy he was deeply involved. It was the understanding that he had lost heavily in Washington real estate. This was generally believed to have caused his suicide.

LET A NEWS WANT AD GET IT FOR YOU

## Concrete for Permanance

The manufacture of Portland Cement has revolutionized the world. It is one of the most potent factors in our present development.

One of the largest Cement Plants west of the Mississippi river is located in Ada.

It should give you a feeling of intense pride to know that the natural resources of your own community and the labor of your neighbors are going forth from your own city in a product that contributes much to the upbuilding of our great southwest.

Published in the interest of Ada by an institution that will be helped by whatever helps Ada.

Know your town—Then you can intelligently further its progress.

**THE Model CLOTHIERS**

Investigation has revealed that the Emperor Nero was in the habit of using a lorgnette.

When the first mate of a golden-breasted waxbill dies, the surviving bird will never marry again.

**Clears  
Complexion**

"Oh! how clear and beautiful your complexion is today, my dear!"

THERE is a certain joy—a certain pride—in knowing you are admired, whether it be from father, brother, husband or sweetheart! And back of that joy is the satisfaction of knowing all is well.

Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps, wondering—hoping—praying for that attractiveness which is not theirs. But why the wondering—the hoping—the praying for that clear skin—that beauty. A clear skin—is the barometer of one's condition. A healthy skin radiates beauty. Pure, clear blood means a clear skin.

S.S.S. is waiting to help you. It will rid your blood of its impurities and give you that clear complexion. Since 1876 S.S.S. has been ridding people of blood impurities, from pimples, from blackheads, boils, eczema and from rheumatism, too. Because S.S.S. is made from fresh herbs and barks, it may be taken with perfect safety. Try it yourself. You will not only look better, but you will feel better, too.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

## No. 1

led to short center but Terry is caught at second. Gowdy fled out to second. No runs, one hit, no errors.

Seventh Inning  
Washington—Ruel walked. Miller went out to Kelly. McNeely walked. Harris fled out to Young. No runs, not hits, no errors.

New York—Bentley out, Judge to Johnson. Linstrom singled to center field. Frisch popped out to Harris in short right. Young singled over Judge's head. Linstrom going to third. On an attempted double steal Linstrom was out at the plate. No runs, two hits, no errors.

Eighth Inning  
Washington—Rice was out, Frisch to Terry. Goslin hit a home run into the upper right field stands. Judge singled over third base. Bentley is taken out and McQuillan replaces him. Bluege is out, Frisch to Terry. Ruel out, Linstrom to Terry. One run, two hits, no errors.

New York—Kelly singled to left field. Terry walked. Wilson was safe when Johnson fumbled his bunt. Jackson fled out to Goslin. Kelly scored after the catch. Gowdy forced Wilson at second, Miller to Harris. McQuillan singled, scoring Terry. Linstrom singled over first, scoring Gowdy. Frisch forced Linstrom at second. Three runs, three hits, one error.

Ninth Inning  
Washington—Leibold batting for Miller, fled out to Kelly. Tate for Johnson, walked. Taylor running for Tate. McNeely fanned, swinging. Harris fled out to Wilson. No runs, no hits, no errors.

Years sometimes pass before a race horse's value is realized.

An elephant's trunk contains 40,000 muscles.

September is the most popular month with bicyclists.

## Large Percent of Graduates of O. U. in State

(By the Associated Press)

NORMAN, Okla., Oct. 8 (Special)—That more than 7 per cent of all those who have been graduated from the University of Oklahoma since its founding 32 years ago are casting their lot with the state which educated them is indicated by a survey of the alumni body which has been made in connection with the organization of the Stadium-Union Memorial campaign now under way.

Of the 4,056 men and women in the alumni group, 3,166 are residents of Oklahoma and 395 of the remainder live in the adjacent states of Arkansas, Texas, Kansas, Colorado and Missouri. Practically every other state in the union and 18 foreign countries are represented among the 495 who make up the balance.

A low death rate among the graduates is also indicated by the survey. Only 133 per cent of those who have received degrees from the institution are deceased. This is held to be remarkably low, especially when it is considered that 38 of the 54 on the list of deceased died in the world war. It is to memorialize these soldier dead that the Stadium-Union project was conceived.

To carry the enterprise through to completion will require \$1,000,000, the amount being sought from the Sooner Alumni in the present campaign.

## Oil News

Jack Lloyd is underreaming, carrying the 6-inch casing at 2743 in section 6-3-7. He is working in shale formations.

Floyd O. Howarth is drilling at 628 feet, carrying the 15 inch casing, in section 14-4-7.

The same interests are cleaning out at 2565 in section 19-5-7, north of Francis.

C. J. Wrightsman is underreaming at 2165 in section 24-4-4, near Center.

The American Oil and Refining Company is drilling at around 300 feet in section 16-4-6 and around 400 feet in section 3-4-6, both between Ada and the Bowles producing well in section 34-5-6.

The Pilgrim Oil company is underreaming at 1208 feet in section 27-4-6, near the city limits.

The T. & P. Oil Company is rigging up in section 31-4-6.

Island May be Deserted  
By All Its Inhabitants

MANILA.—The entire population of Bubuayan Island, one of the Bubuayan group which is about 100 miles north of Luzon, may be transferred to another island nearer the coast of Luzon. An active volcano has driven the 250 inhabitants from their homes down to the water's edge, and frequently they are compelled to take to their canoes to escape the showers of rocks and the lava which stream down the mountain side.

An American Red Cross investigator who is now on his way to the island with relief supplies will ascertain if the inhabitants want to move to another island where agricultural conditions are better. If the people are willing to move the Red Cross will assist them in establishing homes on another island.

## Lodge and Club Notices

Poultry Association to Meet.  
The Pontotoc County Poultry association will meet at the News office Thursday evening at 7:30. All poultry breeders invited to be present. H. J. HUDDLESTON, President.

Masons Notice  
All Royal Arch Masons, who will participate in our special meeting to be held October 15, are urged to be present at the regular meeting of Ada Chapter and Council Thursday night at 7:30 in the Council chambers of the Masonic building.—M. C. Grigsby, High Priest.

RUSSIA SLOWLY WINNING  
IN FIGHT ON MALARIA

MOSCOW.—The International Malaria commission of the League of Nations, which has been visiting Russia to investigate the malaria epidemic, has completed its work and approved generally the efforts of the Russians to combat the disease.

One of the commissioners said recently that the epidemic seems to have passed in most of the affected areas, but there are a number of localities where it still prevails due to the shortage of quinine.

THE HAGUE.—The Permanent Court of International Justice has given a decision by which the dispute between Albania and Yugoslavia over the ownership of the monastery of Saint-Naoum has been settled in favor of Albania. The dispute was originally passed before the Conference of Ambassadors on December, 1922, which allotted the monastery to Albania, but allowed Yugoslavia to dissent. The ambassadors, being unable to effect a settlement passed the dispute on to the League of Nations. The question being a legal one, the Court of Justice rendered the verdict for the League.

FOUR HOLD INTERESTING  
MEETING MONDAY EVENING

The Forum Literary Society met Monday at 7:30 p. m. in the music room of the College. The very interesting program, which was given, was as follows:

Song, "America, the Beautiful"—Assembly.

Scripture reading from Sermon on the Mount—Chaplain.

Reading of the Minutes—Secretary.

Address—President Linscheid.

Violin solo, "Souvenir"—Miss Lillian Strite, accompanied by Miss Mary Bella Harvey.

Current events—Miss Audie Spence.

Reading—Miss Ruth Ward.

Vocal solo, "A Bowl of Roses"—Miss Alton Tompkins.

Reading of two original poems, "Southern Lady Moon," and "A Youth Dreams," Welborne Hope.

Jokes—Mr. Lowe.

Talk—Mr. Patton.

Talk—Mr. Davis.

In the business session, reports were given by the various committees of the work which they are doing. Some new committees were also appointed.

Committee on Stunts for Home Coming Day, Mr. Rogers, chairman, Misses House, Kidd, McCoy and Tompkins and Mr. Gray members.

Committee to select colors, Miss House, chairman, Miss Flora Bell Chadd, and Messrs. Hope, Gray and Floyd, members. Committee to select motto Mr. Frost, chairman, Misses Hazel and Zelma Chadd, members.

GREAT BRITAIN FACES  
GENERAL ELECTION

LONDON.—Defying the opposition and exhorting liberal tactics, Premier MacDonald probably made certain a general election by his speech today before the first Labor party conference since Labor came into power.

"I should not complain if a challenge came on vital issues," MacDonald said, "but the liberal proposal to investigate Editor Campbell, a communist charged with sedition, proceedings against whom were dropped by the government, is in the spirit of medieval crookedness and torture."

"We shall surrender nothing. If there is an election the responsibility for it is not ours."

When MacDonald predicted a victory at the polls he was widely cheered. The convention passed a resolution congratulating the premier on his achievements and promising utmost support in event of an election.

Cotton on the local market dropped to correspond with the slump at New York and New Orleans following the publication of the government forecast. This afternoon buyers reported that street sales ranged from 23 to 23.75.

The season's receipts at Ada passed the 4,000 mark today. The county weigher at 3 o'clock had received 3,585, the cotton growers 315 and 300 round bales had been ginned.

Macfadden Publications

A reading of True Romances, a Macfadden publication, explains the increasing popularity of this magazine. It is full of that romance which grips the attention to the end and all written in the first person. It gives one that contact with humanity which not only broadens the mind but enables one to better understand the temptations of life at their true value.

Radio Stories for October is the first number of this magazine. It is one of the Macfadden group of publications, and covers an entirely new field. It is not at all technical, but deals with the personalities of the individual, the drama, the romance and the stories of those who entertain the radio fans. The features are tremendously interesting, particularly that by Vincent Lopez, "The Love Letters of a Jazz King," in which he tells about the love letters and messages from sweethearts who will never see him.

Physical Culture Magazine is synonymous with the name of Bernard Macfadden; a thought of one brings the other to mind. The October number of this magazine, issued by Macfadden Publications, Inc., has an unusually strong interest for those who wish to get well and keep well. It seems wonderful when we realize what a very small effort is required to change from a weakling to a strong and robust being. An article that should have a wide reading is how "Milk Cured my T. B.," by Carl Malmquist. There are many other articles and stories that will keep one's interest aroused.

TOKIO.—Japan's outstanding social service worker, Toyohiko Kagawa, widely known as "Kagawa of Kobe" plans to visit the United States late this year. Mr. Kagawa, a novelist with a wide public, conducts a social settlement in Kobe. During the past year he has been much in Tokio doing relief work among the earthquake sufferers.

## Mrs. Price Opens Third Store for Tishomingo Trade

The Fashion, Ada's exclusive store for Ladies' ready to wear, is the first of a chain of three, established by Mrs. C. D. Price. The others being at Sulphur and Tishomingo.

The Sulphur store was opened last April with a beauty shoppe combined. The Tishomingo branch will be opened Saturday of this week for the first business.

Mrs. Price has been a resident of Ada for some time. She began work in 1918 with Burkes Style shop, where she clerked five years. She then went in partnership with Mrs. A. W. White and bought out the Williamson Fashion shop. After six months she sold her interest and put in the Fashion with Mr. J. M. Burdick.

Last April the Sulphur store was established. After being solicited by the citizens and college students at Tishomingo, she is opening a store and beauty shoppe there. Mrs. A. J. Love is in charge of the Sulphur branch and Mrs. H. A. Green will have charge of the new store at Tishomingo.

"AMERICAN MANNERS"  
AT THE AMERICAN

"American Manners," the F. B. O. picture now showing at the American theatre, is crammed with daring exploits. The stunts of Richard Talmadge, who plays the role of Roy Thomas, will find their way into the hearts of all who enjoy hair-raising stories.

The picture throughout is gripping and thrilling! It deals with Roy Thomas, a young American athlete, who has spent a number of years in Paris. Coming back to America he is instrumental in uncovering a smuggling ring which has been operating on the boats controlled by his father—and it is while he is engaged in this undertaking, disguised as a longshoreman and later as a deckhand that some of the most thrilling action ever shown in a picture takes place.

The hero's dive from the top of the mast, to rescue the girl he later marries, starts the action ball to rolling and after that, hazardous happenings come so thick and fast that you wonder how Talmadge ever came through the picture alive.

A delightful romance runs through this story and, of course, the winning of the girl is the goal that brings victory out of seeming defeat in the hand to hand fights in which the hero engages.

A splendid cast has been selected to support the young star, including such well-known screen favorites as Helen Lynch, Mark Fenton, L. C. Shumway, Arthur Mellette, Pat Harmon, William Turner and George Ward.

ANTI-HORSE THIEF ASSN.  
TO MEET AT CHICKASHA

CHICKASHA.—(Special)—Days of the golden west, when the theft of a horse meant a necktie party with a band of vigilantes on one end of the rope and the thief on the other, will be recalled here on October 21 and 22, when the wide-hatted boys from the forks of the creek will assemble for the annual session of the state Anti-Horse Thief association.

All sessions will be held in the auditorium of the city hall, according to arrangements made by Paul

Why do men  
tip  
their  
hats?

—because, when they used to wear armor, they thought it safe to remove the helmet when talking with a friend. This action, a compliment passed into our custom of raising the hat. Customers compliment us on

Puretest  
ASPIRIN  
TABLETS  
because they gain from them safe relief from colds, grippe and headache.

Absolutely true aspirin, tablets so skillfully made that their beneficial action begins in 15 seconds. Highest purity, never irritate or burn. One of 200 Puretest preparations. Every item the best that skill and conscience can produce.

GWIN & MAYS  
The Rexall Drug Store

R. Riley, secretary of the Chickasha Chamber of Commerce and W. T. Wheat, of Olton, secretary of the association. It is expected that between 250 and 300 delegates will attend the sessions.

According to a letter from Mr. Wheat, the discussions will center around makes of automobiles, license numbers, engine numbers and yearly models as well as brands, colors and breeds of livestock. The association has turned its attention to automobile thieves as well as the kind that preys upon livestock.

The old newsless Monday is a great day for newspapers now, with their lists of killed and injured.

Canadian wheat crop is about 40 percent smaller than last year's yield.

## SAID CAN'T BE DONE

"My experience with doctors and medicines caused me to lose faith in both, and when a friend told me that Mayr's Wonderful Remedy would cure my stomach trouble I told him 'it can't be done.' However, he finally persuaded me to try it and to my surprise it did. All symptoms of acute indigestion and gas having disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Gwin & Mays and druggists everywhere.—Adv.

E. O. WHITWELL, pastor

**At the Nazarene Church**

There is to be a group meeting of all the Nazarene church within a radius of fifty miles around Ada to begin on Thursday night December 11th, and continue until Sunday night following, December 14th, at which time the Rev. Chas. Robinson will begin a revival running through the holidays. He will be assisted by Prof. Lawson Brown and wife of Little Rock, Ark., who will have charge of the singing. He is a splendid singer, good soloist and choir director. You will miss a treat if you fail to hear him. Mrs. Brown will preside at the piano. Keep this date in mind and be sure to attend these services.—R. B. McCain, pastor.

**First Baptist Church**

Sunday school at 9:45, J. A. Riddling is general superintendent. A class for every age is supervised by a corps of competent teachers.

The Men's Bible class meets at the McSwain theatre at 9:30, L. A. Ellison is teacher. One of the best

and largest men's Bible classes in the state.

Rev. R. T. Mansfield of Oklahoma City will fill the pulpit at both the morning and evening hour. Rev. Mansfield is one of the most capable ministers in the state and you will enjoy and appreciate his messages.

The Sunbeams, under supervision of Miss Horner, will meet in the Sunday school annex at the morning hour. Send the little folks to this meeting and enjoy the church services.

The B. Y. P. U.'s will meet at the church at 6:15. You are cordially invited to attend any and all of the services of this church.—Clyde Calhoun Morris, pastor.

**Presbyterian C. E.**

Christian Endeavor topic for November 30—Stewardship. Our Prayers for Christ's World. Matt 6:9-13.

Song service.

Prayer.

Leader's talk—Audrey Whitwell

What is Prayer?—Bonnie Dobson.

Why Do We Pray?—Ben Weaver

Why Should Our Prayers Concern Themselves With the Whole World?—Emma Hayley.

Reading

Sentence Prayers

What is the connection between world prayers and missionary reading?—Esther Daily.

Why especially should Christian Endeavorers be concerned for the world?—Bill Smith.

How can our society put itself more closely in touch with the world-field? Ray Perkins.

Musical Number.

Benediction.

**Circle Prayer Meetings**

No. 2 had good meeting with Mrs. Newcomb, leading. Six present.

Next meeting with Mrs. Niel, 807 East Eighth street, Mrs. Patterson, leader.

No. 3 with six present and Mrs. Long leading, had a splendid service at Grandma Castleberry's. The next will be on West Eighth at Mrs. Grindstaff's, with Mrs. Crockett, leader.

No. 4 with Rev. and Mrs. Fields on West Fifteenth, with Mrs. Holly leading, had a fine meeting. Nineteen present.

Our next will be with Mrs. Derrick, 1015 South Stockton, Mrs. Hodge, leader.

**First Christian Church**

Bible school at 9:40 a. m. Mr. C. E. Cunningham, superintendent and George L. Dougherty, assistant.

The Men's Bible class will meet at 9:30 a. m. in the banquet room of the Harris hotel. Dr. A. Linscheid, teacher.

The Loyal Daughters class will meet at 9:30 a. m. in Criswell's parlors. Mrs. Bliss, teacher.

Communion and preaching at 11 a. m. Subject—"The Christian Family in the Modern World."

Evening services at 7:30, p. m. Subject—"Noah and His Ark."

The Intermediate Endeavor will meet at 5 p. m. Mrs. M. A. Waits superintendent.

The High School Endeavor will meet at 6:30 p. m. Mr. George L. Dougherty, superintendent and Hubert Clark, president.

The Senior Endeavor will meet at 6:30, p. m. Miss Edith Moore, president. Let all the young people come.

Bible Study period, Tuesday evening at 7:30 p. m.

Choir practice Wednesday evening at 7:30, p. m. Mr. C. E. Cunningham, director.

**Nazarene Church**

Sunday school, 9:45 a. m.

Preaching service, 11 a. m.

Junior League, 3 p. m.

Young People Society, 6 p. m.

Preaching service, 7:15 p. m.

Board meeting Monday, 7:15 p. m.

Woman's Missionary Society, Wednesday 1:30 p. m. Every member requested to be present.

Prayer meeting Thursday, 7:15 p. m.

Everybody welcome to attend these services and we urge those who have no church home here to especially come.

R. E. McCain, Pastor.

**Fifth Methodist Church**

(A Home-Like Church)

Sunday school, 9:45 a. m.

Morning sermon, 10:55 a. m.

Subject—"Making the World Christian. Why?"

Evening sermon, 7:15 p. m.

Subject, "I Will Build My Church"

Bible class at College Monday.

Wednesday and Friday, 4:45 p. m.

Bible class at church each Wednesday evening 7:15-8:15. This is a very interesting course of study. The first 20 minutes of the mid-week hour will be devotional period and then a 40-minute lesson period. Each one is urged to bring Bible to mid-week study.

We are just entering a new conference year. Will you see what you can do as an individual member to make your church succeed this year? You can, at least, attend church and invite others.

The revival under the leadership of Rev. Burke Culpepper will begin Jan. 4. Pray and work and have faith in God for a great meeting.—R. T. Blackburn.

## HI-Y CLUB ORGANIZED AT STATE REFORMATORY

(By the Associated Press)

PAULS VALLEY, Okla., Nov. 29.—Probably the first Hi-Y club ever established in any industrial school in the United States has been organized at the Oklahoma Training School for boys here.

J. C. Watson of Oklahoma City, state secretary of the Young Men's Christian association was present and supervised the formation of the club.

The purpose of this club is "to create, maintain and extend throughout the school and community high standards of Christian character." Watson told the boys. The objectives of club are popularly stated in the following slogan: Clean living, clean speech, clean athletics and clean scholarship.

Fourteen of the older boys, selected chiefly because of their excellent records in discipline and study, formed the nucleus of the club here. An advisory council of Pauls Valley ministers and training school officials will aid the boys. The club will be affiliated with the state organization. New members will be added. It is planned to organize a group of the younger boys into an associate club.

Robin Knight, superintendent of the school, has stated it is his intention of organizing a student council and now with the organization of the Hi-Y club, he proposes to submit to it questions which for the good of the school, he believes can be worked out to good advantage by the boys themselves. "If my rules are lenient, or strict, we'll get together, the boys and myself and work out satisfactory ones. We are going to work out our little problems among ourselves," Knight said.

**"HER OWN FREE WILL"**

IN EXCELLENT FILM

A conflict of wills between a man and a woman is always interesting. Nan and her husband have a whale of a battle in "Her Own Free Will."

Helene Chadwick's first starring vehicle, playing at the American theatre Monday. This screen dramatization of the Ethel M. Dell story is a mighty good picture.

The plot is a rather unusual one. Nan is one of those impulsive, warm-hearted girls who leap first and look afterwards. She marries a man she does not love, to save her father from bankruptcy. Fate seems to reward her by separating them even before the honeymoon but of course he comes back and then the trouble begins. The story works up to a dramatic climax which we are not mean enough to give away. Suffice it to say that it holds you breathless and to use an expression of the sweet young things, "thrilled to death."

Helene Chadwick gives a splendid portrayal of Nan. It is a real treat when a girl who is so easy to look at can act too. She certainly deserves her promotion to stardom. Holmes Herbert with whom husband roles seem to be a specialty, is good as the masterful Peter Cradock and Alan Simpson is convincing as Jerry Lister, the young chap who goes a little too far in helping Nan forget that she is married.

Director Paul Seardon did an excellent job. You'll like "Her Own Free Will" so don't miss it.

## Stonewall

(Special News Correspondent)

Saturday was a busy day with the merchants of Stonewall.

Mrs. J. T. Nicols of Tishomingo came in Monday to spend the winter with her daughter, Mrs. W. R. Williams.

W. Y. Switzer, presiding elder from Durant, passed through Stonewall November 19, on his way to Atoka.

The Ladies Aid met at the home of Mrs. Ed Garrett Monday in a social meeting.

The Home Mission held their regular meeting at the church, with a good attendance. All are urged to come.

Rev. R. E. Lamb filled his regular appointment Saturday and Sunday.

Madams Acker and Ray were Ada visitors Tuesday.

Mrs. A. B. Malone, Mrs. Tom Henson and Miss Fanny Leach were shopping in Ada Monday.

Mrs. W. B. Garrison who has been visiting in Durant was the guest of her sister, Mrs. Tom Henson this week.

The Baptist Ladies gave a pie supper at the school house Friday night which was quite a success. Both socially and financially. Two cakes were offered as prizes to the handsomest man and the prettiest girl. Bill Cox and Miss Beatrice Branstetter were the winners.

E. A. Austelle, wife and sister, Miss Pauline, went to Ada Thursday night to attend the show.

Mrs. George McKoy was an Ada visitor Wednesday.

Edgar Crabtree was in Allen on business Thursday.

The Ata Beta Pie entertained at the school house in honor of the Beta Capps November 20. About forty guests were present. The evening was spent in playing old fashioned games, refreshments of chocolates, sandwiches and pie were served and at a late hour all departed for their homes delecting they had never had a better time.

The basketball court under the efficient management of George Young and Frank Frantz, the cement man, is nearing completion and the players are becoming anxious to begin their games.

Mr. and Mrs. Chism and Mr. and

Mrs. Ed Rives and children spent Wednesday in the county with relatives.

Miss Beatrice Branstetter was visiting in Ada Thursday.

Mrs. Bessie Archer of Oklahoma City visited her father, Mr. Brongton this week.

Mrs. Jim Byrd and children were in Stonewall Tuesday.

Mrs. Z. K. McCoy and daughters spent Saturday in Stonewall.

Miss Georgia Furlong and Miss Thelma Scrivner of East Central came home to attend the pie supper at the school house Friday night.

Mrs. W. F. Elkins is on the sick list this week.

Mrs. T. T. Lowman of Holdenville is visiting her parents this week.

Miss Viola Chestnut went to Atoka Saturday to visit her sister J. D. Price is putting up a cement building next to the post office. It will be occupied by the Farmers Exchange.

A number of young people from here spent Sunday at Byrds Mill.

Misses Bessie Carroll and Etta Ross spent Sunday with Miss Jim Marshall.

Miss Jim Marshall spent Thanksgiving with friends in Ada.

Madames I. W. Odom and Hal Autry were Ada shoppers Wednesday.

Baptist state convention met at Chickasha November 11, Rev. E. J. Matthews was sent as a delegate from this place.

Mrs. J. W. Sharrock of Ada is visiting her grandson and family, Mr. and Mrs. A. W. Chaddick.

Miss Gladys Flanders of the E. C. S. T. C. was the week-end guest of Miss Ruth Garrett.

### YEAGER

School began Monday with a real good attendance.

Cotton picking is all over and everybody is moving. George Norris swapped places Monday.

W. G. Jervis and Walter Field attended church at Summers Chapel Sunday night.

Ernest Pharr has moved to the Galey district.

J. F. McGuire and W. G. Jervis went to da Friday afternoon after he new text books. They certainly did get a fine lot of books.

J. M. Cosby and two little girls are visiting at Inola this week.

Rastus Gibbons is on the sick list this week.

Let us be thankful all the girls chewing gum are not chewing tobacco.

## ROFF

MISS PAULINE GIVENS Reporter

## BIBLE THOUGHT FOR TODAY

THE SPIRIT OF THE LORD GOD is upon me: because the Lord hath anointed me to preach good tidings unto the meek: He hath sent me to bind up the brokenhearted, to proclaim liberty to the captives, and the opening of the prison to them that are bound.—Isaiah 61:1.

## TROTSKY'S FIGHT FOR LIFE.

It is reported that Trotsky, the Russian war secretary, is now in the midst of a struggle with his enemies who seek to drive him from the position he has held since the bolsheviks took over the control of the country. The struggle promises to be a hard one and the outcome will probably rest with the army. If Trotsky can hold the backing of the red army which was created by his genius, he will be able to retain his hold on the government and drive his enemies to cover, but if he loses this support he is gone.

Lenin and Trotsky were from the first the outstanding figures of the red revolution. Lenin looked after the civil administration while Trotsky handled the military end. Between the two they kept the country under control and repelled attacks from the outside. Now that Lenin is gone Trotsky's position is far from secure. There are too many ambitious bolsheviks on his trail to leave him much peace.

Whatever one may think of Trotsky's political views, all must admit his genius in creating an effective fighting force. After the fall of the czar the army went to piece. Kerensky's weak administration could not hold it together. The soldiers took control of their own affairs and carried their ideas of equality so far that before a company would obey the command of an officer it took a vote on the question. The army quickly disintegrated and chaos reigned supreme. Just how Trotsky restored discipline and created a fighting force that repelled all enemies is not fully known, but the fact remains that he did this, much to the surprise of the world which expected a speedy downfall of the soviet regime, and for seven years has sustained the government set up by the bolsheviks. The bolsheviks are a very small minority of the population, but the army has enabled them to impose their will on a nation of 130,000,000 people.

## CONGRATULATIONS, BRO. HALL.

George Riley Hall had double reason to celebrate Thanksgiving. Aside from the ordinary run of things, it was the twenty-second anniversary of the founding of his paper, the Henryetta Free-Lance.

When he began his career as an editor Henryetta was only a small place and at that time the existence of Indian Territory newspapers was precarious at best. Having gone through the same experience that he had in trying to put a paper on its feet in those days with little capital except an abiding belief in the future of Oklahoma, we are in a position to congratulate him with a deeper feeling than most Oklahoma editors.

During the 18 years we have been in Ada a great many changes have taken place in the personnel of the newspaper fraternity. We recall fewer than a dozen papers which are in the hands that guided their destinies at that time. Hundreds have given up the struggle in the face of insurmountable obstacles and new men have come in. For a man to remain with one paper for more than 20 years is some record for Oklahoma.

Col. Hall has seen many newspaper ventures spring up in his own town only to go down after flourishing for a time. He has plodded along as best as he could and at last as he approaches the early autumn days of his life, he finds himself firmly established and with few uncertainties in the near future.

## A COMMENDABLE MOVE.

This year the Santa Fe railroad is again offering club boys and girls in counties traversed by its lines free trips to the great livestock show at Chicago. The trips are in the nature of prizes to the ones making the best records in their respective counties. In this connection Oklahoma gets 13 representatives. They are now en route to Chicago with all expenses paid.

The trip is not only a great sight seeing affair, but the National Boys and Girls club congress will be held while they are there and the livestock show will prove a revelation to the young folks. In other words, the trip is an important part of the education of the young people.

In this connection the Santa Fe is to be commended for helping along the movement looking towards a coming generation of well informed farmers and housewives. It will cost the railroad some \$6,000 but if the young people make the most of the opportunity thus afforded them the money will have been well spent.

The 1925 session of the World Press Congress will be held in Rome, Italy. Now if the papers could exchange advertising space for steamer tickets it would be some gathering.

Let a NEWS WANT AD get it for you.

## WHO IS MY NEIGHBOR?

The laws of nature makes it almost impossible for men to live alone. He finds such an existence a round of hardships, to say nothing of his yearning for the society of others.

This matter of living in contact with others also imposes certain duties due from one to the other. As society becomes more complex these duties correspondingly increase until in these modern days of highly organized society, it is necessary for organizations to take over part of the work that is difficult for the individual to handle. Man is his brother's keeper and cannot well escape his responsibility.

Who is my neighbor? No philosopher or theologian has ever improved on the answer found in the Parable of the Good Samaritan by Jesus just a few months before his departure.

Jesus had already bidden Galilee farewell and was spending the last few months of his ministry in Perea, the region east of the Jordan. Here, as elsewhere, he lost no time. Every hour was taken up and to expedite his work he sent forth 70 disciples to carry the word to the inhabitants. The mission was a fruitful one and there was great rejoicing among the little company who followed the Master in his work.

It was in course of these events that a certain lawyer, or authority on the laws of Moses, attempted to match wits with the renowned teacher by asking him what he should do to inherit eternal life. Jesus asked him what the law said on the subject. The lawyer quickly responded by quoting two passages one commanding whole hearted love for God and the other to love one's neighbor as himself. Jesus commended the reply and instructed him to continually obey the commands.

Then it was that the questioner asked whom he should consider as his neighbor. This brought forth the parable, or rather illustration of the Good Samaritan, probably the most quoted of any of Jesus' utterances. It is possible that the incident really happened.

It is only about 20 miles from Jerusalem to Jerico, but there is a drop of more than 3,000 feet in altitude in that distance. The road runs through a wilderness which to this day is infested by robbers. It is easy to imagine how a lone traveler might be attacked by a band of outlaws and robbed and beaten as was the man of the story.

The first man to pass that way was a priest. He was evidently one of the formalists of the day and his counterpart is not hard to find in our own times. He was strict to obey the outward forms of the law and insist that others did likewise, but it was all on the surface. No warm heart animated by love beat under the smug exterior which his fellows respected as embodying the tenets of their religion. He did not even stop to ask if he could be of assistance. The sufferings of others did not concern him and he could not afford to impair his dignity by offering succor to one outside of his own class. It was not his fault that the man was near death, so he passed on.

Next came a Levite. He, too, was a man who employed much of his time in worship at the temple, although he ranked below the priest. He did not stop long enough to glance at the sufferer, but doubtless thought it too much trouble to offer assistance, so he went on his way.

Finally came the Samaritan. Although the Jews hated him and his people and held themselves far above them, he did not stop to consider that the man before him might be one of those who had reviled him as an outcast and drew away from him as he approached lest they might be contaminated by his touch. He only saw before him a fellow creature sorely in need of help and, even though his own business might have been pressing, he turned aside to extend what aid he could. After dressing the wounds he put the unfortunate man on his own beast and took him to the nearest inn where he cared for him during the night. Not only that, but next morning he paid the inn-keeper to care for him for several days and promised to pay still more in case that did not suffice.

Having related the story, Jesus asked the lawyer who was neighbor to the man in distress. There could be but one answer and the lawyer gave it. Jesus countered by commanding him to go and do likewise. Whether he did or not, we are not told, but he had been given a great lesson in love and was the means of having this lesson handed down in story form to the generations for thousands of years to come.

From the beginning of his ministry Jesus had taught universal love, not only for God and one's friends, but even one's enemies. These lessons, however, have been fully practiced by only a very few people of the millions who have read or heard them. We know from experience what miracles love can work. We are told that when a man really loves God and His Son, he will keep their commandments, but how few exemplify the love they profess.

Jesus also said that in showing mercy to the least of his children one is showing it to him. It is not always easy to bring one's self to do some of the things that are plainly his duty to perform. We recall an incident in our life bearing on this point. The writer and another man were asked to sit up with a sick man one night. He needed attention but the surroundings were so unspeakably bad that instead of going personally we gave a dollar each to another man to do what we should have done ourselves. Certainly we shirked our duty that time.

It is easy for one to talk and declare his love for God and humanity, but talk is cheap. It is only by our works for others that we can exemplify that the spirit of God is within us. Love is the foundation stone of society and without it we have anarchy. In the end we are told that God is love and that means that the universe is moved by this divine principle. Satan has sowed the seed of hatred and discord and the harvest has been great, but as the spirit of God as taught by Jesus permeates the structure of society, peace prevails.

Now that the votes of LaFollette and some of his most ardent followers in the senate are not needed to make up a Republican majority, their colleagues have turned a cold shoulder upon them, resolving not to invite them to attend Republican conferences in the future and not to give them further recognition on committee assignments. They will probably be allowed to hold what the have, but the rule of seniority will no longer hold in their cases and they can expect nothing more at the hands of the Republican senators.

## LET THEM HAVE FUN

(Oklahoma Democrat)  
When the Democrats reflect upon what they used to say of the Republican party following its rout in 1912 they allow that some of the jibes at their own expense now probably are coming to them. From John W. Davis down they are accepting their defeat in a manner generally praised as sportsmanlike. Although they pack a wicked blow for their friends the enemy in 1926 and 1928 they are letting him have his full of fun now. Here comes the New York Sun with the following on the Democratic national committee:

"What it needs is sweet forgetfulness. It ought to go into a long winter sleep and try to forget what happened to it. Otherwise there will be no more life left in it than in the egg of a dinosaur."

There is no use denying that it takes a lot of fortitude to be able to keep the peace when someone likens your party to a dinosaur egg, but there is a best that can be made even of this situation. Didn't somebody a year or so ago sell a Republican a setting of dinosaur eggs that were warranted to have come down unimpaired from the Mesozoic age? Well, anything that has such longevity as that need not mind an occasional defeat. If there is as much life left in the Democratic national committee as there is in those dinosaur eggs, then the Republican party knows who its political foe will be for the next several millions of years. Provided, of course, that the Republican party itself continues in existence instead of falling off the map, as it came so close to doing 12 years ago. Whether it is likened to those long-lived dinosaur eggs or not, the party of Jefferson has been meeting all comers for something like 130 years and this is assurance that it will continue in the game.

And as their Republican friends twit them now, the Democrats will recall some of the rich laughs they had in their turn at the expense of their opponents. After it had called the Democratic party a sectional party the Republican wound up in 1912 as scarcely a district party. It was more like a patch party, with hold only in Utah and Vermont. Then there was that night in 1916 when the great Charles Evans Hughes went to bed under the impression that he had been elected president of the United States. A servant refused to permit him to be disturbed, waving aside those with news from the front with the warning that "the president has retired."

Oh, boy! wasn't there the fun for the Democrats in those days? And let no Democrat doubt that those happy days will come again. Meanwhile let the friend the enemy take his fill of laughing while he may.

## Poultry Show Will Assume Fortune in Prizes of Barnyard

(By the Associated Press.)

OKLAHOMA CITY, Nov. 29.—The value of exhibits to be shown at the Eleventh Annual Oklahoma State Poultry Federation's show, December 2 to 8, will exceed \$150,000, according to R. C. Shelton, president of the Oklahoma county branch of the federation. This, Shelton declares "will be the largest exhibition of poultry ever exhibited west of Chicago." Forty-two states besides Canada and Cuba, will be represented.

"Profits derived from the show will be used in distributing educational literature to poultry breeders and farmers in Oklahoma," Shelton said. The Oklahoma federation has a membership of 200 breeders. Judges who will preside at the show are:

George Winas, Oklahoma City; William C. Tallant, Mounds; Frank Buck, Oklahoma City and Vic Hobbs, Kansas City.

An English pathologist has discovered that bad temper increases the amount of sugar in the blood by 10 to 30 percent.

## Service to you in life and after!

Mr. R. U. Wideawake,  
Ada, Oklahoma.

Ada, Oklahoma, Dec. 1st, 1924.

Dear Sir:

If one of your local banks offered to place \$10,000.00 to your credit, provided you paid a small rate of interest on it—would you not be surprised and gratified?

If the bank further guaranteed that, should you ever become permanently and totally disabled through sickness or accident, and thereby unable to earn a living, they would relieve you of all interest, and in addition would pay you \$100.00 a month during your disability—would you consider their offer?

Furthermore, if at your death, no matter when it occurred nor for how long, or years you had been paid the \$1200.00 a year, your wife and children would at once receive the principal sum of \$10,000.00—would you think the bank's offer worthy of your careful thought?

If you prefer having your wife and children receive a monthly income as long as they live instead of the \$10,000.00 in a lump sum, that can also be arranged.

I represent a company that is recommended by all sound business men, whose assets are greater than those of any bank in the city. If the above proposition is worth anything to you, let me call and talk the thing over.

Very truly yours,

A Fellow Townsman.

## Potts Boomed As Sooner Hope In Athletics

NORMAN, Nov. 28.—(Special)—Frank Potts of Ada will represent the University of Oklahoma in the pole vault event in the indoor track meets this year, according to John Jacobs, track coach. Two meets have already been scheduled, both of which are at Kansas City, one the Missouri Valley indoor meet and the other an invitation meet sponsored by the Kansas City Athletic Club.

Potts will report for track immediately after the Thanksgiving holidays. He has been going out for freshman football and was captain of the Boomer team. His position is fullback and he is being groomed to take the place left vacant by Captain "Oble" Bristow, who receives his bachelor of laws degree in June. "Ram" Morrison, former Sooner football star, spent several days of the past season, polishing off Potts' punting, and practicing with him on dropkicks. Most experts agree that the big Ada boy will be the first string fullback next year.

While in high school, Potts was a football, basketball, and track letterman. He tied for first in the pole vault in the state interscholastic meet at Norman in 1922, and won the East Central district meet in the same event in both 1922 and '23, establishing a record of 11 feet, 6 inches in the latter year, which still stands.

He was second all-state fullback in 1922 as well as captain of the Ada football team, and second all-state collegiate fullback the following year. He also captained the high school basketball team in 1922, when his team won the East Central district championship.

## YOUNG MAN ENTERS HIGH STATE BODY

Fletcher Riley to Take Up Court Duties; Youngster In Politics

LAWTON, Okla., Nov. 29.—A "stripling" of 31 will take the oath of office as associate justice of the Oklahoma supreme court, when Fletcher Riley of Lawton is sworn in at Oklahoma City, in January as member from the Ninth judicial district. Riley will be the youngest man ever to sit upon the supreme bench in Oklahoma, and probably the youngest in the history of jurisprudence in the United States.

Hardly had the ink dried upon Riley's diploma from the University of Oklahoma before he entered politics and at 23 he was the representative from Cotton and Comanche counties in the lower branch of the state legislature. The smooth faced lad seemed out of place in the chamber of bearded and furrowed solons, but it was not long until he established himself as sagacious as well versed in statecraft as the majority. That was in 1916. One year later, the United States entered the lists against Germany and on May 12, five days after the declaration of hostilities, young Riley handed his resignation to Governor Williams and forsook the forensic halls for the training camp and the "great adventure." He served in France with the Third Division and after the Armistice was invalided home as a casual. He had become first lieutenant of artillery.

While still convalescing, Riley married Miss Carolyn Duffy, of Norman, sweetheart of his college days. After being discharged from the army, Riley returned to Lawton, hung out his shingle and awaited the clients. They were few at first and Riley once remarked, "I practiced law and my wife practiced economy."

In 1920 Riley was elected county attorney and re-elected in 1922. His successful prosecution of Will Tait and Cleo Cohen, slayers of Russell Sprague, a lawton service car driver gained Riley much notoriety. Both were sentenced to the electric chair. Riley obtained the democratic nomination for the supreme court over John T. Johnson, chief justice and was elected by a heavy majority. Of the six supreme court races this year, his majority ranked third.

Riley was born at Greenville, Texas, January 29, 1893. The family moved to Oklahoma in 1901. The Rileys have one child, a girl.

### Residence Burns at Roff

The S. B. Brady home in Roff was destroyed by fire Wednesday morning about 10 o'clock. The fire have originated, it is supposed, from a defective flue. Mrs. Brady had just come down the previous day to see after business matters and left the house, to collect some rentals, and she thinks that soot in the flue caught fire.

Only a small part of her household goods was in the house at the time of the fire and only a few articles were destroyed. — Roff Eagle.

John Dutcher of Mayfield, N. Y., stunned by a fall from his wagon, drowned in a few inches of water in a roadside ditch.

## ERWIN GREER IS FINED FOR SPEED

Automobile Expert Tells Others to Drive Car Slowly.

(By ERWIN GREER, President Greer College of Automotive Engineering, Chicago).

You who read this little column of mine think that the fellow who writes it is a pretty wise bird. But did you ever wonder why I am able to write so wisely? Well, this particular article cost me over \$55 but you get it for nothing.

Two months ago I bought a straight eight, guaranteed to turn up nearly 100 miles an hour. After breaking it in, running around 25 miles an hour for 1,000 miles—as every good motorist does—I decided to take friend wife on a trip through the country. And when we came to a long stretch of macadam I sampled my bus to see what speed it really could turn up. Yes, the car was as fast as the manufacturers claimed. The motorcycle cop who arrested me proved it to the judge.

The judge—an old but experienced motorist—welcomed me with open arms, and his advice ran thusly:

"Your first duty is to impress upon the public the fact that you have a new car. Always drive it as fast as it will go. This gives people the impression you could easily win a race. When turning a corner always do it on two wheels. Everyone loves to be thrilled. Don't push the horn button until you are in the midst of a crowd. It is great sport to see people knock each other down in their haste to keep from being run over. Besides, it makes you as welcome as a mad dog."

"If you desire excitement, try beating a train to a crossing, or run your car into a tree. This will bring you newspaper headlines and it is quite possible that some movie company will offer you a big salary for becoming a stunt man. Always vary your antics. To keep people guessing is the spice of life."

"Fifty dollars and costs! Now get out of here. If I ever catch you speeding again in this county I'll send you up for life!"

And my poor wife drove poor trembling me home with remarks that would shiver a sheet of steel.

"Now I don't get that new hat I wanted. You an automotive expert, bah! You ought to be engineer of a peanut stand. If you ever speed again I'll tell every automobile editor in the country and then your reputation won't be worth a wooden nickel. Hereafter, you drive to the office via the elevated."

And so, reader, you see by the foregoing that even I—who you think knows all about automobiles—am only a human being after all. Did I tell that judge my right name? I did not! I'd have been given ten years if he knew who I was.

Be satisfied to ride slowly, using all possible forethought and consideration. Don't speed when you come to a straight stretch. You might meet the same judge that I did—and hear him say: "Fifty dollars and costs!"

### Cost of Car Operation

The cost of operating an automobile is one of the greatest items in the auto owner's budget and one that is the most watched. A car that burns the least fuel is the most popular car in most cases, and it is the only car for the person with a small amount of money to spend for his pleasure. When purchasing a car this side of the question should be kept in mind by the purchaser and the car best fitted to his pocketbook should be the one purchased. The initial cost will be near as great as the continued cost of operation.

### ARDMORE EXPERIMENTING WITH NEW ROAD MATERIAL

ARDMORE — Tests are now being made by city and county officials which may revolutionize the method of street building and repair. One block on Tenth avenue northwest, between E and F streets, is being used in the first venture, but later more traveled road will be used.

Excavation is made about six inches deep and a base of native gravel is used on which is placed a topping of clay. On top of this a two-inch coating of gravel, boiled in native asphalt is poured.

Marion Pierce, county commissioner is furnishing the gravel, chat and limestone that is being used, in the work, while the city is furnishing labor and asphalt.

The coat is about 75 cents a foot. With such a low price all of the dirt and gravel streets of the city could be asphaltized in a short time, for it required but a short time to lay the surface. The principal objection to paving in Ardmore has been the high cost.

### POULTRY INDUSTRY STAGES REMARKABLE INCREASE

OKLAHOMA CITY, Nov. 28.—The poultry industry in Oklahoma has increased over 500 percent within the past five years, according to \$18,000,000, Cargill said. Oklahoma City, and one of the state's most prominent poultry breeders.

Poultry in the state at the present time is valued at more than \$50,000,000 with a revenue of \$75,000,000 whereas in 1919 the valuation was \$10,000,000 with revenues from the annual production amounting to \$18,000,000, Cargill said.

"The poultry business ranks third among other industries in the state being surpassed only by oil and cotton," Cargill declared. He predicted that in a few years Oklahoma will be one of the leading states in the industry."

## Tune In

Program for Nov. 30.  
(Courtesy of Radio Digest)  
(By the Associated Press)

KFGZ Berrien Springs (286) 8:15 sacred concert; 8:30 readings; 8:45 services.  
WEEI Boston (303) 6:20-9:30 Strand Theatre program.  
WGN Chicago Tribune (370) 9 concert ensemble, soloists.  
WGR Buffalo (319) 8-9 program.  
WLS Chicago (345) 6:30-7 organ; 7-8 musical.  
WQJ Chicago (448) 8-10 concert, soprano, cello, piano.  
WJAX Cleveland (390) 7:30 concert.

WHK Cleveland (283) 7 chapel service; 8 concert.  
WLW Cincinnati (423) 6:45 sermon; 7:45 concert.  
WWJ Detroit News (517) 6:30 services.  
WFFA Dallas News and Journal (476) 9:30 Hawaiian music recital, songs.  
WOC Davenport (484) 8 services; 9:30 orchestra.

WHO Des Moines (526) 7:30-9 musicale, tenor, baritone.  
KNX Hollywood (327) 9 program; 10 feature; 12 singer.  
MHAA Iowa City (484) 9-9:30 hymns.

WHB Kansas City (411) 8-9:15 religious.  
WDAF Kansas City Star (411) 4-5 orchestra.  
KHJ Los Angeles Times (395) 8:30 orchestra; 9 organ; 10 program.  
WMC Memphis Commercial-Appeal (500) 11 services Calvary Episcopal Church.

WHN New York (360) 9 entertainers.  
WCAL Northfield (360) 8:30 sacred program.  
WOAW Omaha (526) 6 Bible hour; 9 musical chapel service.  
KGW Portland (492) 8 services; 9 concert.

WGY Schenectady (380) 6:30 services; 8-9 symphony orchestra.  
Program for Dec. 1.  
(Silent Night Chicago)  
WOI Ames (360) 10 popular music.

KFGZ Berrien Springs (286) 7 bedtime stories; 8:15 concert.  
WEEI Boston (303) 6 Big Brother club; 6:30 musicale; 6:50 talk; 7 baritone; 7:45 Buddy's Bostonians 8:30 astronomy; 8:40 program.  
WGN Chicago Tribune (370) 6 organ; 6:30 concert.

## WAY TO IDENTIFY ANY STOLEN CAR

Simple Matter to Place Secret Marks on Machine in Out-of-Way Places.

(By ERWIN GREER, President Greer College of Automotive Engineering, Chicago.)  
You wouldn't leave a bag of \$20 gold pieces parked at the curb even though they were stamped "in God We Trust." In fact the person who did so would immediately be sent to the insane asylum. But nine out of every ten motorcar owners, according to statistics, are fully as careless with their machines, which often represent a bag of gold pieces far too heavy to carry.

You think nothing of leaving your car for long periods without locking it. And if you are fortunate enough in still having it, why it is nothing less than sheer luck. It is little wonder that automobile thieves live off the fat of the land and find such a profitable field for their work.

**How Thieves Work.**  
Thieves usually work in pairs and when they see an unlocked car at the curb, they drive another machine alongside of the unlocked one. It is an easy matter to step from one into the other. In case they are discovered in the actual theft, the other car is the means of getting away. As a rule they take the one that offers the least resistance for an easy get-away.

Suppose your car is one of those stolen. Could you identify it with a new paint job or other disguising features? Remember that the car is the thief's property until proved otherwise. Without some real proof you cannot, of course, claim your property. With the engine numbers and frame identification removed, you cannot possibly tell your car from another, especially on account of the fact that there are so many standard models.

**Identification Marks.**  
It is a simple matter to put secret identification marks on your machine. Inside the hubcaps and on the frame are excellent places. Or you might loosen some part of the upholstery and insert your business card. In this event you would catch the thief red-handed. Suppose that those identification places were discovered and removed—surely there are other ways that will suggest themselves to you from an observation of your own particular car. And a thief isn't superhuman; he cannot locate all the identification places.

But do it right now. Don't wait until the car is gone.

It only takes a few seconds to lock your car. And, as a rule, the thief shadows his prospect several days before he steals it. If he sees that you are careful it is a ten to one shot that he'll pass your machine up for one that is easier to steal.

So don't put temptation in his way.

**Well Recommended Paint for Use on the Muffler**  
It is difficult to find a satisfactory paint for exhaust pipe and muffler, because of the heat of those parts. Here is a highly recommended muffler paint: Boiled linseed oil, one-fifth pound; Japan varnish, one-fifth pound; turpentine, two-fifths pound; lampblack, one and a half ounces; powdered graphite, one and a half ounces; powdered oxide of manganese, three-eighths ounce. Mix the linseed oil and Japan varnish well together, then add in order, stirring all the time, the lampblack, the graphite and the powdered manganese. Add the turpentine, until the quantity mentioned has been used. This mixture, should be used as soon as it is mixed, as it dries quickly. Every time the brush is dipped in it should be stirred. It is well to paint the muffler while it is hot, after having cleaned it thoroughly.

## Ways for Using Hammer in Making Car Repairs

Care in the use of the machinist's hammer, which forms a part of the tool equipment of every automobile, is one of the first things the amateur automobile repairman must learn when working around the engine, says a writer in the American Motorist. With this hammer he can do more damage in a moment than a good man can repair in a week. His first inclination is to use this form of persuasion on any and every refractory part, and this is a desire which should be overcome.

Not only should the hammer itself not be used on any metal parts without the intervention of a piece of wood to protect the surface, but care must be exercised to avoid hitting the other parts through the inaccuracy of aim that distinguishes the unskilled welder of this tool.

A poorly-aimed blow that misses its target and lands on one of the valve push rods or similarly vulnerable parts with any degree of force is apt to cause trouble of an expensive nature.

It is a good thing for the novice to be sparing in the use of his hammer as a cure-all. Do not resort to it unnecessarily, and do not use a sledgehammer blow where a light tap will do the work.

**OKLAHOMA CITY**—The recent extraordinary session of the senate of the Oklahoma legislature cost the state approximately \$20.65 per minute. The session lasted 66 minutes.

According to the report filed with Governor Trapp, the brief meeting, for the purpose of electing a president pro tempore, cost \$1,361. Of this \$284 was awarded the senators in salaries. Railroad

## ENGLISH ARE BETTER IN BALLOON TIRES

Mr. L. Nuttall of Goodmayes, England, assembling his invention of a better balloon tire. The inner tube, an inch thick, takes a tremendous pressure, and is the full size of the wheel down to the drum or hub flange. Steel discs fit over the sides to the rim bolts. Note the spares hanging on the rack.

**Keeping Car Under Control on Grades**  
In driving down steep grades various resistances may be utilized to keep the car under control. If the engine is kept running and the gears are in high, there is only slight resistance. This may be increased by shifting into second speed, and further increased by shifting into first. When still further resistance is needed to maintain a check on the progress of the car and it is not desired to use the brakes the ignition may be shut off and the throttle closed. By opening the throttle the resistance is still further increased. The maximum of resistance and the best control on a dangerous steep hill may be obtained by shifting into first, switching off the ignition and applying the brakes at intervals.

## Grabbing Rattles in Their Infancy Is Right Plan

The more expensive a car is the longer you expect it to run without rattles. Yet it is possible with even the lowest priced cars to keep the rattles out if you but catch them as they appear. They will come one by one and if they are caught in the same manner they will not be nearly so hard to remove as they would be if they are allowed to accumulate in a troublesome chorus before they are stopped.

Rattles in the brake linkage and other parts under the car can be found by shutting off the engine and allowing the car to coast in neutral gear. If someone stands or sits on the running board while the driver does this, many sounds that have been difficult to locate will be readily found. These link rods are a typical example of noise that will often defy the efforts of the driver to find, while another person sitting on the running board or outside the car will have little or no difficulty in locating them.

## Place for Extinguisher on the Running Board

Where to put the extinguisher is an open question. Under the dash is the customary place. But almost every motor car fire endangers this spot. Flames sometimes envelop the extinguisher before the driver has a chance to unhook it. The most logical place, from the fire standpoint, is to place it on the running board, but this not only spoils the car's looks, but tempts children to meddle with it. For roadsters, especially, the extinguisher can be carried on brackets at the base of the driver's seat. In this position it is very handy. For touring cars a good place is the back of the front seat. Here it is accessible, that is the main thing. It would be less conspicuous if painted black. And in winter it would be covered by the robes. In this respect, however, use your own judgment.—Motor Life.

## Poor Cement Is Blamed for Failure of Patches

One reason, perhaps, why a great many roadside and amateur tire patches do not hold when the tube is assembled into the shoe is that rubber cement is used which is not up to the mark.

Usually the cement has been reposing in the car's tire repair kit for quite a time, and it is therefore not so fresh and active as it once was. Be sure to get the best materials you can, in the first place, and, further, before going on a long trip examine the tire repair kit to make sure everything in it is in good condition.

Better an inspection before the start of the trip than regrets at the poor shape everything is in later when called upon to fix a puncture out on the road.

fare was the heaviest item, totaling \$1077. Legislators are paid 10 cents a mile as travel pay.

Using ultra violet rays and a dark background, a photo-micrograph magnifying an object 25,000 diameters has been developed. On this scale the head of a pin would appear to be forty yards across.

What might be thrown in with the car in the way of 'free' accessories and 'free' service was of secondary consideration. In fact, these items were of such absurdly minor consequence, compared with the chief objective—that of getting a car that represented real dollar-for-dollar value—that they deserved no consideration whatever.

"Having come to this conclusion, Dodge Brothers determined to base the price of their cars wholly on actual value, with a fair profit to themselves and dealers. To enable them to 'give away' accessories and 'free' service, it would be necessary to make the margin of profit on the car large enough to absorb these extra costs. That could be done only by raising the list price of the car—and they refused to do that.

"So, under Dodge, Brothers policy the buyer pays ONLY for his car.

"Under the so-called 'free' service policy, every owner pays a maintenance fee for the upkeep of every other owner's car—and he pays this fee in advance.

"Under Dodge Brothers policy, the owner is not penalized. He pays a fair, pre-determined price for service, but he pays only as he needs it—and he pays only for his own. The logic of the proposition is perhaps plain. That is why most people have no difficulty in understanding why 'free' service is not as 'free' as it looks, and our charges are entirely reasonable and wholly justified by the principles under which the car was sold."

Miami, Okla. —John Comba of Picher says United States Judge J. C. Pollock of Fort Scott, Kans., is a "fine fella." Comba, who is under sentence on a federal charge, recently visited friends at the sheriff's office here.

"Judge Pollock fine fella," Comba told his acquaintances. "He give me choice of any jail in Kansas."

Comba said he was undecided between the jail at Tawnee and the Columbus jail.

## Money In the Motor Car Business

There are handsome profits, plus real satisfaction, in the motor car business—provided you have a really well built, well advertised motor car to sell.

One of America's leading automobile manufacturers desires a dealer to represent his product in this community.

Aggressive men who understand the principles of successful merchandising, who are sound business men, and who command capital or bank credit, will make a gratifying success of this connection. These, therefore, are the kind of men we want.

A very important event to be announced will make this connection even more desirable in the near future, than it now is. The time to go into details, is now. Write for an appointment.

The "Why" and "Wherefore" of the new

# Moon

told in  
46 Pithy Paragraphs

From a thinking  
automobile manufacturer  
to the thinking  
automobile buyer

- 1 It's a common thing for an automobile salesman to raise his eyebrows and say that the So-and-So car is an "assembled car."
- 2 He works the phrase overtime.
- 3 To him it seems the easy way to put his competitor's car out of the running, because nine times out of ten he doesn't get any argument.
- 4 Not being much of a student of the automobile industry himself, he takes a chance that the prospect won't know much about it either.
- 5 Strange how the automobile purchaser, who has been all up and down the line, and compared cars inside and out, will let a salesman put him on the defensive.
- 6 Every man who has read the catalogues of even two or three makes of cars know that practically every make of car today is an "assembled car"—and has been for years.
- 7 This came about when the demand for automobiles made it virtually impossible for the car manufacturer to make his cars complete under his own roof.
- 8 The needs brought about by this demand were responsible for one of the best things that ever happened to the automobile industry—the development of the specialist in mechanical units.
- 9 Men who make fine ignition systems—and nothing else.
- 10 Men who make sound axles, gears and bearings—nothing else.
- 11 Men who make engine so right that the car builder who wants to can always give you a good one.
- 12 Now, the thing that makes this talk about "assembled cars" so ridiculous is this:
- 13 Practically every car in America today is using units made by specialists—whether few or many. They are better—they are sound mechanical economies—and the public can rely on them in daily use.
- 14 The thing that distinguishes the Moon is that the makers of the Moon Car have carried the advantages of specialism out to their logical and complete conclusion.
- 15 Moon long ago freed itself from any false pride about making its own engines.
- 16 We have higher work for our engineering talent than to keep them working over engines that can be built better and at lower cost by the engine specialist.
- 17 What Moon is after is the greatest engine value.
- 18 We get it by having our engines built by the finest engine specialists in the automobile industry today.
- 19 Years ago, Moon worked out a successful production method that has given it its unique position in the automotive industry:
- 20 Article 1. A unified, balanced car, designed by the Moon engineers, on the basis of proven mechanical units made by the leading specialists.
- 21 Article 2. Have these proven mechanical units designed expressly to coordinate in the unified Moon Car by the specialist engineers working in collaboration with the Moon engineers.
- 22 Engine—The Moon engine is a special Moon-Continental Red Seal Motor, designed by the Continental specialists in collaboration with Moon.
- 23 Axles, Front and Rear—Special Moon-Timken design—through collaboration of the Moon engineers and the Timken specialists, built in the Timken factories.
- 24 Transmission—Special Moon-Warner design, created in collaboration by the Warner specialists and the Moon engineers, and built in the Warner factory.
- 25 Starting, Lighting, Ignition—Special Moon-Delco system, built in the Delco factories in collaboration between the Delco specialists and the Moon engineers.
- 26 Article 3. Let the Moon engineers develop their specialty—the fine skill and utmost care in designing and constructing the finished car.
- 27 There is not in the automobile world a sweeter, truer job of sheer building integrity than you will find in the Moon Car.
- 28 You owe this to the fact that the Moon engineers have made themselves specialists in the practice of car-building.
- 29 The units are designed to go together.
- 30 They all fit.
- 31 Units that are meant to be rigid are riveted and bolted tight.
- 32 Parts that are meant to move, do move. They move with a fluency and precision which stamp a car as a true mechanical whole.
- 33 The Moon factory has achieved success by putting plenty of good old-fashioned work into a Moon Car.
- 34 Every man in the factory knows he might as well do it first as last—because every Moon Car goes through an actual road test before it leaves the factory.
- 35 And when we say "road test" we mean road test. Not a casual run down the loading platform—but a work-out on the open road, taking things as they come.
- 36 Seeing the trend of the automobile as we do—and making it the opportunity to give value—we are building the Moon Car to give you every last dollar's worth there is in the automobile industry.
- 37 Part of this you can see just as you stand before the car and look it over.
- 38 Moon specialized design—and if we do say it ourselves, there is not a more beautiful car on the roads today. Furthermore, you're not going to find this design changed on you. Your investment in a Moon Car is safe from the artificial depreciation due to forced style changes.
- 39 Distinctive Moon-Pullman body—and there's a genuine hardwood frame inside that body.
- 40 Deep seat cushions—with genuine Spanish Leather and first-quality curled hair.
- 41 It would please us if you will do this:
- 42 Take this advertisement along with you to any Moon Dealer. Check it up.
- 43 Let him put a Moon Car at your disposal. Drive it yourself.
- 44 It will confirm every one of these printed words to your conclusive satisfaction.
- 45 Twenty-one miles per gallon of gasoline; unusually high mileage.
- 46 MOON HAS ADOPTED HYDRAULIC FOUR-WHEEL BRAKES AND BALLOON TIRES.

From a thinking  
automobile manufacturer
